## Management's Discussion of Fund Performance (unaudited)

The total return of Federated Hermes Mortgage Strategy Portfolio (the "Fund"), based on net asset value for the 12-month reporting period ended December 31, 2023, was 5.18%. The Bloomberg US Mortgage Backed Securities Index (BMBS),<sup>1</sup> the Fund's broad-based securities market index, returned 5.05% during the same period. The Fund's total return for the most recently completed fiscal year reflected actual cash flows, transaction costs and expenses not reflected in the total return of the BMBS.

During the reporting period, the most significant factors affecting the Fund's performance were (a) security selection; (b) interest rate strategy; and (c) sector allocation.

The Fund pursues its investment objective by investing primarily in Mortgage Core Fund, a portfolio of Federated Hermes Core Trust. As such, the discussion of significant factors below primarily reflects the performance of the Fund's investment in Mortgage Core Fund relative to the BMBS.

### MARKET OVERVIEW

The Federal Reserve (the "Fed") tightened monetary policy after four of the first five Federal Open Market Committee (FOMC) meetings during the reporting period. However, in an indication that the federal funds target rate was sufficiently high and progress in the fight against inflation had been made, the Fed maintained the federal funds target rate in a range of 5.25%-5.50% over the final three FOMC meetings. While the federal funds target rate held steady in the latter stages of the reporting period, quantitative tightening continued as the Fed's portfolio of securities continued to shrink. U.S. Treasury holdings contracted as securities matured while scheduled and unscheduled principal paydowns of mortgage loans resulted in reduced holdings of mortgage-backed securities (MBS).<sup>2</sup> The higher federal funds target rate and quantitative tightening combined to produce significantly tighter monetary policy.

While the year-over-year U.S. Treasury yield changes did not indicate dramatic changes, intra-period market volatility was significant. For example, the 5-year U.S. Treasury yield declined 16 basis points during the reporting period; however, it traded in a yield range which spanned 160 basis points. As the federal funds target rate stabilized in the latter portion of the reporting period, investor confidence that rate hikes were complete, or nearly so, increased and a rally in rates and spread sectors ensued.

U.S. Treasury yields declined and mortgage-to-Treasury spreads contracted significantly as investor demand for MBS was robust at historically wide spreads. While MBS posted positive excess return for the reporting period, performance lagged that of credit sectors including investment-grade corporates and high-yield. Nonetheless, MBS excess return performance was the best it had been since 2013.

During the reporting period, the 2-year U.S. Treasury yield decreased 18 basis points to yield 4.25% and the 10-year U.S. Treasury yield was unchanged to yield 3.88%.<sup>3</sup>

### SECURITY SELECTION

Security selection, notably in government-guaranteed mortgage securities, proved beneficial and aided Fund performance.

### INTEREST RATE STRATEGY (DURATION AND YIELD CURVE)

The Fund increased effective duration<sup>4</sup> relative to the BMBS in anticipation of lower market yields. Additionally, exposure to various points on the yield curve were adjusted due to expectations for yield changes at select maturities. The timing of such tactical interest rate strategy moves was inopportune and did not perform as expected. Interest rate strategy, encompassing both effective duration and yield curve, made a negative contribution to Fund performance during the reporting period. Derivatives<sup>5</sup> were used as a tool to assist in managing Fund duration and yield curve exposure.<sup>6</sup> The principal derivatives the Fund used for these purposes were Treasury futures contracts. For the reporting period, the use of futures contracts negatively contributed to Fund performance relative to the benchmark.

## SECTOR ALLOCATION

Allocations to non-agency residential MBS, commercial MBS as well as a cash position were beneficial. Overall, sector allocation made a positive contribution to Fund performance.

- 1 *Please see the footnotes to the line graph under "Fund Performance and Growth of a \$10,000 Investment" below for the definition of, and more information about, the BMBS.*
- 2 *The value of some mortgage-backed securities may be particularly sensitive to changes in prevailing interest rates, and although the securities are generally supported by some form of government or private insurance, there is no assurance that private guarantors or insurers will meet their obligations.*
- 3 *Bond prices are sensitive to changes in interest rates, and a rise in interest rates can cause a decline in their prices.*
- 4 *Duration is a measure of a security's price sensitivity to changes in interest rates. Securities with longer durations are more sensitive to changes in interest rates than securities of shorter durations.*
- 5 *The use of derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional instruments.*
- 6 *The yield curve is a graph showing the comparative yields of securities in a particular class according to maturity. Securities on the long end of the yield curve have longer maturities.*

## FUND PERFORMANCE AND GROWTH OF A \$10,000 INVESTMENT

The graph below illustrates the hypothetical investment of \$10,000<sup>1</sup> in the Federated Hermes Mortgage Strategy Portfolio (the “Fund”) from December 31, 2013 to December 31, 2023, compared to the Bloomberg US Mortgage Backed Securities Index (BMBS).<sup>2</sup> The Average Annual Total Return table below shows returns averaged over the stated periods.

### GROWTH OF A \$10,000 INVESTMENT

#### Growth of \$10,000 as of December 31, 2023

#### Average Annual Total Returns for the Period Ended 12/31/2023

	1 Year	5 Years	10 Years
Fund	5.18%	0.52%	1.62%
BMBS	5.05%	0.25%	1.38%

**Performance data quoted represents past performance which is no guarantee of future results. Investment return and principal value will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Mutual fund performance changes over time and current performance may be lower or higher than what is stated. For current to the most recent month-end performance and after-tax returns, call 1-800-341-7400. Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Mutual funds are not obligations of or guaranteed by any bank and are not federally insured.**

- <sup>1</sup> The Fund’s performance assumes the reinvestment of all dividends and distributions. The BMBS has been adjusted to reflect reinvestment of dividends on securities in the index.
- <sup>2</sup> The BMBS covers agency mortgage-backed pass-through securities (both fixed-rate and hybrid ARM) issued by Ginnie Mae (GNMA), Fannie Mae (FNMA) and Freddie Mac (FHLMC). The index is not adjusted to reflect sales loads, expenses or other fees that the Securities and Exchange Commission requires to be reflected in the Fund’s performance. The index is unmanaged and, unlike the Fund, is not affected by cash flows. It is not possible to invest directly in an index.

## Portfolio of Investments Summary Table (unaudited)

At December 31, 2023, the Fund's portfolio composition<sup>1</sup> was as follows:

<b>Portfolio Composition</b>	<b>Percentage of Total Net Assets<sup>2</sup></b>
U.S. Government Agency Mortgage-Backed Securities	88.6%
Non-Agency Mortgage-Backed Securities	5.2%
Asset-Backed Securities	2.0%
Agency Risk Transfer Securities	0.3%
Collateralized Mortgage Obligations	0.2%
Cash Equivalents <sup>3</sup>	3.7%
Other Assets and Liabilities—Net <sup>4,5</sup>	0.0%
<b>TOTAL</b>	<b>100%</b>

1 See the Fund's Prospectus and Statement of Additional Information for a description of the types of securities in which the Fund invests.

2 As of the date specified above, the Fund owned shares of one or more affiliated investment companies. For purposes of this table, the affiliated investment company (other than an affiliated money market mutual fund) is not treated as a single portfolio security, but rather the Fund is treated as owning a pro rata portion of each security and each other asset and liability owned by the affiliated investment company. Accordingly, the percentages of total net assets shown in the table will differ from those presented on the Portfolio of Investments.

3 Cash Equivalents include any investments in money market mutual funds and/or overnight repurchase agreements.

4 Assets, other than investments in securities, less liabilities. See Statement of Assets and Liabilities.

5 Represents less than 0.1%.

# Portfolio of Investments

December 31, 2023

Shares or Principal Amount		Value
	INVESTMENT COMPANY—98.5%	
105,812,493	<sup>1</sup> Mortgage Core Fund (IDENTIFIED COST \$899,507,330)	\$894,115,566
	REPURCHASE AGREEMENT—1.6%	
\$ 14,271,000	Interest in \$1,800,000,000 joint repurchase agreement 5.34%, dated 12/29/2023 under which Bank of Montreal will repurchase securities provided as collateral for \$1,801,068,000 on 1/2/2024. The securities provided as collateral at the end of the period held with BNY Mellon as tri-party agent, were U.S. Government Agency securities with various maturities to 2/20/2073 and the market value of those underlying securities was \$1,855,100,040. (IDENTIFIED COST \$14,271,000)	\$ 14,271,000
	TOTAL INVESTMENT IN SECURITIES—100.1% (IDENTIFIED COST \$913,778,330) <sup>2</sup>	908,386,566
	OTHER ASSETS AND LIABILITIES - NET—(0.1)% <sup>3</sup>	(1,146,914)
	TOTAL NET ASSETS—100%	\$907,239,652

Transactions with affiliated investment companies, which are funds managed by Federated Investment Management Company (the “Adviser”) or an affiliate of the Adviser, during the period ended December 31, 2023, were as follows:

	Mortgage Core Fund
Value as of 12/31/2022	\$294,527,987
Purchases at Cost	\$576,355,913
Proceeds from Sales	\$ (2,800,000)
Change in Unrealized Appreciation/Depreciation	\$ 26,666,665
Net Realized Gain/(Loss)	\$ (634,999)
Value as of 12/31/2023	\$894,115,566
Shares Held as of 12/31/2023	105,812,493
Dividend Income	\$ 21,105,912

The Fund invests in the Mortgage Core Fund (“Mortgage Core”), a portfolio of Federated Hermes Core Trust (“Core Trust”), which is managed by the Adviser. Core Trust is an open-end management investment company, registered under the Investment Company Act of 1940, as amended (the “Act”), available only to registered investment companies and other institutional investors. The investment objective of Mortgage Core is to provide total return. Federated Hermes, Inc. (“Federated Hermes”) receives no advisory or administrative fees from Mortgage Core. Income distributions from Mortgage Core are declared daily and paid monthly. All income distributions are recorded by the Fund as dividend income. Capital gain distributions of Mortgage Core, if any, are declared and paid annually, and are recorded by the Fund as capital gains received. At December 31, 2023, Mortgage Core represents 98.5% of the Fund’s net assets. Therefore, the performance of the Fund is directly affected by the performance of Mortgage Core. To illustrate the security holdings, financial condition, results of operations and changes in net assets of Mortgage Core, its financial statements are included within this report. The financial statements of Mortgage Core should be read in conjunction with the Fund’s financial statements. The valuation of securities held by Mortgage Core is discussed in the notes to its financial statements.

- 1 Due to this affiliated holding representing greater than 75% of the Fund’s total net assets, a copy of the affiliated holding’s most recent Annual Report is included with this Report.
- 2 The cost of investments for federal tax purposes amounts to \$919,291,170.
- 3 Assets, other than investments in securities, less liabilities. See Statement of Assets and Liabilities.

Note: The categories of investments are shown as a percentage of total net assets at December 31, 2023.

Various inputs are used in determining the value of the Fund’s investments. These inputs are summarized in the three broad levels listed below:

Level 1—quoted prices in active markets for identical securities.

Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Also includes securities valued at amortized cost.

Level 3—significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used, as of December 31, 2023, in valuing the Fund's assets carried at fair value:

**Valuation Inputs**

	Level 1— Quoted Prices	Level 2— Other Significant Observable Inputs	Level 3— Significant Unobservable Inputs	Total
<b>Investment Company</b>	\$894,115,566	\$ —	\$—	\$894,115,566
<b>Repurchase Agreement</b>	—	14,271,000	—	14,271,000
TOTAL SECURITIES	\$894,115,566	\$14,271,000	\$—	\$908,386,566

# Notes to Financial Statements

December 31, 2023

## 1. ORGANIZATION

Federated Hermes Managed Pool Series (the "Trust") is registered under the Act, as an open-end management investment company. The Trust consists of five portfolios. The financial statements included herein are only those of Federated Hermes Mortgage Strategy Portfolio (the "Fund"), a diversified portfolio. The financial statements of the other portfolios are presented separately. The assets of each portfolio are segregated and a shareholder's interest is limited to the portfolio in which shares are held. Each portfolio pays its own expenses. The investment objective of the Fund is to provide total return by investing primarily in a mortgage-backed securities mutual fund and individual mortgage-backed securities, including collateralized mortgage obligations.

## 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. These policies are in conformity with U.S. generally accepted accounting principles (GAAP).

### Investment Valuation

In calculating its net asset value (NAV), the Fund generally values investments as follows:

- Shares of other mutual funds or non-exchange-traded investment companies are valued based upon their reported NAVs, or NAV per share practical expedient, as applicable.
- Fixed-income securities are fair valued using price evaluations provided by a pricing service approved by Federated Investment Management Company (the "Adviser").
- Derivative contracts listed on exchanges are valued at their reported settlement or closing price, except that options are valued at the mean of closing bid and ask quotations.
- Over-the-counter (OTC) derivative contracts are fair valued using price evaluations provided by a pricing service approved by the Adviser.
- For securities that are fair valued in accordance with procedures established by and under the general supervision of the Adviser, certain factors may be considered, such as: the last traded or purchase price of the security, information obtained by contacting the issuer or dealers, analysis of the issuer's financial statements or other available documents, fundamental analytical data, the nature and duration of restrictions on disposition, the movement of the market in which the security is normally traded, public trading in similar securities or derivative contracts of the issuer or comparable issuers, movement of a relevant index, or other factors including but not limited to industry changes and relevant government actions.

If any price, quotation, price evaluation or other pricing source is not readily available when the NAV is calculated, if the Fund cannot obtain price evaluations from a pricing service or from more than one dealer for an investment within a reasonable period of time as set forth in the Adviser's valuation policies and procedures for the Fund, or if information furnished by a pricing service, in the opinion of the Adviser's valuation committee ("Valuation Committee"), is deemed not representative of the fair value of such security, the Fund uses the fair value of the investment determined in accordance with the procedures described below. There can be no assurance that the Fund could obtain the fair value assigned to an investment if it sold the investment at approximately the time at which the Fund determines its NAV per share, and the actual value obtained could be materially different.

### Fair Valuation Procedures

Pursuant to Rule 2a-5 under the Act, the Fund's Board of Trustees (the "Trustees") has designated the Adviser as the Fund's valuation designee to perform any fair value determinations for securities and other assets held by the Fund. The Adviser is subject to the Trustees' oversight and certain reporting and other requirements intended to provide the Trustees the information needed to oversee the Adviser's fair value determinations.

The Adviser, acting through its Valuation Committee, is responsible for determining the fair value of investments for which market quotations are not readily available. The Valuation Committee is comprised of officers of the Adviser and certain of the Adviser's affiliated companies and determines fair value and oversees the calculation of the NAV. The Valuation Committee is also authorized to use pricing services to provide fair value evaluations of the current value of certain investments for purposes of calculating the NAV. The Valuation Committee employs various methods for reviewing third-party pricing-service evaluations including periodic reviews of third-party pricing services' policies, procedures and valuation methods (including key inputs, methods, models and assumptions), transactional back-testing, comparisons of evaluations of different pricing services, and review of price challenges by the Adviser based on recent market activity. In the event that market quotations and price evaluations are not available for an investment, the Valuation Committee determines the fair value of the investment in accordance with procedures adopted by the Adviser. The Trustees periodically review the fair valuations made by the Valuation Committee. The Trustees have also approved the Adviser's fair valuation and significant events procedures as part of the Fund's compliance program and will review any changes made to the procedures.

Factors considered by pricing services in evaluating an investment include the yields or prices of investments of comparable quality, coupon, maturity, call rights and other potential prepayments, terms and type, reported transactions, indications as to values from dealers and general market conditions. Some pricing services provide a single price evaluation reflecting the bid-side of the market for an investment (a "bid" evaluation). Other pricing services offer both bid evaluations and price evaluations indicative of a price between the prices bid and ask for the investment (a "mid" evaluation). The Fund normally uses bid evaluations for any U.S. Treasury and Agency securities, mortgage-backed securities and municipal securities. The Fund normally uses mid evaluations for any other types of fixed-income securities and any OTC derivative contracts. In the event that market quotations and price evaluations are not available for an investment, the fair value of the investment is determined in accordance with procedures adopted by the Adviser.

## Repurchase Agreements

The Fund may invest in repurchase agreements for short-term liquidity purposes. It is the policy of the Fund to require the other party to a repurchase agreement to transfer to the Fund's custodian or sub-custodian eligible securities or cash with a market value (after transaction costs) at least equal to the repurchase price to be paid under the repurchase agreement. The eligible securities are transferred to accounts with the custodian or sub-custodian in which the Fund holds a "securities entitlement" and exercises "control" as those terms are defined in the Uniform Commercial Code. The Fund has established procedures for monitoring the market value of the transferred securities and requiring the transfer of additional eligible securities if necessary to equal at least the repurchase price. These procedures also allow the other party to require securities to be transferred from the account to the extent that their market value exceeds the repurchase price or in exchange for other eligible securities of equivalent market value.

The insolvency of the other party or other failure to repurchase the securities may delay the disposition of the underlying securities or cause the Fund to receive less than the full repurchase price. Under the terms of the repurchase agreement, any amounts received by the Fund in excess of the repurchase price and related transaction costs must be remitted to the other party.

The Fund may enter into repurchase agreements in which eligible securities are transferred into joint trading accounts maintained by the custodian or sub-custodian for investment companies and other clients advised by the Fund's Adviser and its affiliates. The Fund will participate on a pro rata basis with the other investment companies and clients in its share of the securities transferred under such repurchase agreements and in its share of proceeds from any repurchase or other disposition of such securities.

Repurchase agreements are subject to Master Netting Agreements which are agreements between the Fund and its counterparties that provide for the net settlement of all transactions and collateral with the Fund, through a single payment, in the event of default or termination. Amounts presented on the Portfolio of Investments and Statement of Assets and Liabilities are not net settlement amounts but gross. As indicated above, the cash or securities to be repurchased, as shown on the Portfolio of Investments, exceeds the repurchase price to be paid under the agreement reducing the net settlement amount to zero.

## Investment Income, Gains and Losses, Expenses and Distributions

Investment transactions are accounted for on a trade-date basis. Realized gains and losses from investment transactions are recorded on an identified-cost basis. Interest income and expenses are accrued daily. Dividend income and distributions to shareholders are recorded on the ex-dividend date. Distributions of net investment income, if any, are declared daily and paid monthly. Non-cash dividends included in dividend income, if any, are recorded at fair value. Amortization/accretion of premium and discount is included in investment income. The detail of the total fund expense reimbursement of \$731,148 is disclosed in Note 5.

## Federal Taxes

It is the Fund's policy to comply with the Subchapter M provision of the Internal Revenue Code of 1986 (the "Code") and to distribute to shareholders each year substantially all of its income. Accordingly, no provision for federal income tax is necessary. As of and during the year ended December 31, 2023, the Fund did not have a liability for any uncertain tax positions. The Fund recognizes interest and penalties, if any, related to tax liabilities as income tax expense in the Statement of Operations. As of December 31, 2023, tax years 2020 through 2023 remain subject to examination by the Fund's major tax jurisdictions, which include the United States of America and the Commonwealth of Massachusetts.

## When-Issued and Delayed-Delivery Transactions

The Fund may engage in when-issued or delayed-delivery transactions. The Fund records when-issued securities on the trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed-delivery basis are marked to market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

## Other

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets, liabilities, expenses and revenues reported in the financial statements. Actual results could differ materially from those estimated. The Fund applies investment company accounting and reporting guidance.

## 3. SHARES OF BENEFICIAL INTEREST

The following table summarizes share activity:

	Year Ended 12/31/2023	Year Ended 12/31/2022
Shares sold	80,038,747	23,685,150
Shares issued to shareholders in payment of distributions declared	55,796	23,589
Shares redeemed	(8,627,988)	(6,251,194)
NET CHANGE RESULTING FROM FUND SHARE TRANSACTIONS	71,466,555	17,457,545

#### 4. FEDERAL TAX INFORMATION

The tax character of distributions as reported on the Statement of Changes in Net Assets for the years ended December 31, 2023 and 2022, was as follows:

	2023	2022
Ordinary income	\$21,213,010	\$7,113,868

As of December 31, 2023, the components of distributable earnings on a tax-basis were as follows:

Undistributed ordinary income	\$ 2,153
Net unrealized depreciation	\$(10,904,604)
Capital loss carryforwards	\$ (147,094)
TOTAL	\$(11,049,545)

At December 31, 2023, the cost of investments for federal tax purposes was \$919,291,170. The net unrealized depreciation of investments for federal tax purposes was \$10,904,604. This consists entirely of unrealized depreciation from investments for those securities having an excess of cost over value of \$10,904,604. The difference between book-basis and tax-basis net unrealized depreciation is attributable to differing treatments for the deferral of losses on wash sales.

As of December 31, 2023, the Fund had a capital loss carryforward of \$147,094 which will reduce the Fund's taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Code, thereby reducing the amount of distributions to shareholders which would otherwise be necessary to relieve the Fund of any liability for federal income tax. Pursuant to the Code, these net capital losses retain their character as either short-term or long-term and do not expire.

The following schedule summarizes the Fund's capital loss carryforwards:

Short-Term	Long-Term	Total
\$139,841	\$7,253	\$147,094

#### 5. INVESTMENT ADVISER FEE AND OTHER TRANSACTIONS WITH AFFILIATES

##### Investment Adviser Fee

The Adviser provides investment adviser services at no fee because all eligible investors are: (1) in separately managed or wrap fee programs, who often pay a single aggregate fee to the wrap program sponsor for all costs and expenses of the wrap fee programs; or (2) in certain other separately managed accounts and discretionary investment accounts. The Adviser has contractually agreed to reimburse all expenses of the Fund, excluding extraordinary expenses. Acquired fund fees and expenses are not direct obligations of the Fund and are not contractual reimbursements under the investment advisory contract. For the year ended December 31, 2023, the Adviser reimbursed \$731,148 of its operating expenses.

##### Administrative Fee

Federated Administrative Services (FAS), under the Administrative Services Agreement, provides the Fund with administrative personnel and services. For purposes of determining the appropriate rate breakpoint, "Investment Complex" is defined as all of the Federated Hermes Funds subject to a fee under the Administrative Services Agreement. The fee paid to FAS is based on the average daily net assets of the Investment Complex as specified below:

Administrative Fee	Average Daily Net Assets of the Investment Complex
0.100%	on assets up to \$50 billion
0.075%	on assets over \$50 billion

For the year ended December 31, 2023, the annualized fee paid to FAS was 0.078% of average daily net assets of the Fund. For the year ended December 31, 2023, the Fund's Adviser reimbursed the Fund for any fee paid to FAS.

In addition, FAS may charge certain out-of-pocket expenses to the Fund.

##### Directors'/Trustees' and Miscellaneous Fees

Certain Officers and Trustees of the Fund are Officers and Directors or Trustees of certain of the above companies. To efficiently facilitate payment, Independent Directors'/Trustees' fees and certain expenses related to conducting meetings of the Directors/Trustees and other miscellaneous expenses are paid by an affiliate of the Adviser which in due course are reimbursed by the Fund. These expenses related to conducting meetings of the Directors/Trustees and other miscellaneous expenses may be included in Accrued and Miscellaneous Expenses on the Statement of Assets and Liabilities and Statement of Operations, respectively.

## 6. INVESTMENT TRANSACTIONS

Purchases and sales of investments, excluding long-term U.S. government securities and short-term obligations, for the year ended December 31, 2023, were as follows:

Purchases	\$576,355,913
Sales	\$ 2,800,000

## 7. LINE OF CREDIT

The Fund participates with certain other Federated Hermes Funds, on a several basis, in an up to \$500,000,000 unsecured, 364-day, committed, revolving line of credit (LOC) agreement dated June 21, 2023. The LOC was made available to temporarily finance the repurchase or redemption of shares of the Fund, failed trades, payment of dividends, settlement of trades and for other short-term, temporary or emergency general business purposes. The Fund cannot borrow under the LOC if an inter-fund loan is outstanding. The Fund's ability to borrow under the LOC also is subject to the limitations of the Act and various conditions precedent that must be satisfied before the Fund can borrow. Loans under the LOC are charged interest at a fluctuating rate per annum equal to (a) the highest, on any day, of (i) the federal funds effective rate, (ii) the published secured overnight financing rate plus an assigned percentage, and (iii) 0.0%, plus (b) a margin. Any fund eligible to borrow under the LOC pays its pro rata share of a commitment fee based on the amount of the lenders' commitment that has not been utilized, quarterly in arrears and at maturity. As of December 31, 2023, the Fund had no outstanding loans. During the year ended December 31, 2023, the Fund did not utilize the LOC.

## 8. INTERFUND LENDING

Pursuant to an Exemptive Order issued by the Securities and Exchange Commission, the Fund, along with other funds advised by subsidiaries of Federated Hermes, Inc., may participate in an interfund lending program. This program provides an alternative credit facility allowing the Fund to borrow from other participating affiliated funds. As of December 31, 2023, there were no outstanding loans. During the year ended December 31, 2023, the program was not utilized.

## 9. INDEMNIFICATIONS

Under the Fund's organizational documents, its Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund (other than liabilities arising out of their willful misfeasance, bad faith, gross negligence or reckless disregard of their duties to the Fund). In addition, in the normal course of business, the Fund provides certain indemnifications under arrangements with third parties. Typically, obligations to indemnify a third party arise in the context of an arrangement entered into by the Fund under which the Fund agrees to indemnify such third party for certain liabilities arising out of actions taken pursuant to the arrangement, provided the third party's actions are not deemed to have breached an agreed-upon standard of care (such as willful misfeasance, bad faith, gross negligence or reckless disregard of their duties under the contract). The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet arisen. The Fund does not anticipate any material claims or losses pursuant to these arrangements at this time, and accordingly expects the risk of loss to be remote.

## 10. FEDERAL TAX INFORMATION (UNAUDITED)

100% of total ordinary income distributions qualified as business interest income for purposes of 163(j) and the regulations thereunder.

For the fiscal year ended December 31, 2023, 100% of dividends paid by the Fund are interest-related dividends, as provided by the American Jobs Creation Act of 2004.

# Report of Independent Registered Public Accounting Firm

## **TO THE SHAREHOLDERS AND THE BOARD OF TRUSTEES OF FEDERATED HERMES MORTGAGE STRATEGY PORTFOLIO:**

### **Opinion on the Financial Statements**

We have audited the accompanying statement of assets and liabilities of Federated Hermes Mortgage Strategy Portfolio (the “Fund”) (one of the portfolios constituting Federated Hermes Managed Pool Series (the “Trust”)), including the portfolio of investments, as of December 31, 2023, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the portfolios constituting Federated Hermes Managed Pool Series) at December 31, 2023, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

### **Basis for Opinion**

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2023, by correspondence with the custodian, brokers, and others; when replies were not received from brokers or others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

*Ernst & Young LLP*

We have served as the auditor of one or more Federated Hermes investment companies since 1979.

Boston, Massachusetts

## Shareholder Expense Example (unaudited)

As a shareholder of the Fund, you incur ongoing costs, including to the extent applicable, management fees, distribution (12b-1) fees and/or other service fees and other Fund expenses. This Example is intended to help you to understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. It is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from July 1, 2023 to December 31, 2023.

### ACTUAL EXPENSES

The first section of the table below provides information about actual account values and actual expenses. You may use the information in this section, together with the amount you invested, to *estimate* the expenses that you incurred over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first section under the heading entitled “Expenses Paid During Period” to estimate the expenses attributable to your investment during this period.

### HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second section of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an *assumed* rate of return of 5% per year before expenses, which is not the Fund’s actual return. Thus, you should *not* use the hypothetical account values and expenses to estimate the actual ending account balance or your expenses for the period. Rather, these figures are required to be provided to enable you to compare the ongoing costs of investing in the Fund with other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only. Therefore, the second section of the table is useful in comparing ongoing costs only, and will not help you determine the relative *total* costs of owning different funds.

	Beginning Account Value 7/1/2023	Ending Account Value 12/31/2023	Expenses Paid During Period <sup>1</sup>
<b>Actual</b>	\$1,000	\$1,033.50	\$0.00
<b>Hypothetical (assuming a 5% return before expenses)</b>	\$1,000	\$1,025.21	\$0.00

<sup>1</sup> Expenses are equal to the Fund’s annualized net expense ratio of 0.00%, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half-year period). The Adviser has contractually agreed to reimburse all expenses, excluding extraordinary expenses, incurred by the Fund. This agreement has no fixed term.

# Mortgage Core Fund

## **FINANCIAL STATEMENTS AND NOTES TO FINANCIAL STATEMENTS**

Federated Hermes Mortgage Strategy Portfolio invests primarily in Mortgage Core Fund. Therefore, the Mortgage Core Fund financial statements and notes to financial statements are included on pages 18 through 43.

## Management's Discussion of Fund Performance (unaudited)

The total return of the Mortgage Core Fund (the "Fund"), based on net asset value for the 12-month reporting period ended December 31, 2023, was 5.19%. The Bloomberg US Mortgage Backed Securities Index (BMBS),<sup>1</sup> the Fund's broad-based securities market index, returned 5.05% for the same period. The Fund's total return for the most recently completed fiscal year reflected actual cash flows, transaction costs and expenses not reflected in the total return of the BMBS.

During the reporting period, the most significant factors affecting the Fund's performance were (a) security selection; (b) interest rate strategy; and (c) sector allocation.

The following discussion will focus on the Fund's performance relative to the BMBS.

### MARKET OVERVIEW

The Federal Reserve (the "Fed") tightened monetary policy after four of the first five Federal Open Market Committee (FOMC) meetings during the reporting period. However, in an indication that the federal funds target rate was sufficiently high and progress in the fight against inflation had been made, the Fed maintained the federal funds target rate in a range of 5.25%-5.50% over the final three FOMC meetings. While the federal funds target rate held steady in the latter stages of the reporting period, quantitative tightening continued as the Fed's portfolio of securities continued to shrink.

U.S. Treasury holdings contracted as securities matured while scheduled and unscheduled principal paydowns of mortgage loans resulted in reduced holdings of mortgage-backed securities (MBS).<sup>2</sup> The higher federal funds target rate and quantitative tightening combined to produce significantly tighter monetary policy.

While the year-over-year U.S. Treasury yield changes did not indicate dramatic changes, intra-period market volatility was significant. For example, the 5-year U.S. Treasury yield declined 16 basis points during the reporting period; however, the security traded in a yield range which spanned 160 basis points. As the federal funds target rate stabilized in the latter portion of the reporting period, investor confidence that rate hikes were complete, or nearly so, increased and a rally in rates and spread sectors ensued.

U.S. Treasury yields declined and mortgage-to-Treasury spreads contracted significantly as investor demand for MBS was robust at historically wide spreads. While MBS posted positive excess return for the reporting period, performance lagged that of credit sectors including investment-grade corporates and high-yield. Nonetheless, MBS excess return performance was the best it had been since 2013.

During the reporting period, the 2-year U.S. Treasury yield decreased 18 basis points to yield 4.25% and the 10-year U.S. Treasury yield was unchanged to yield 3.88%.<sup>3</sup>

### SECURITY SELECTION

Security selection, notably in government-guaranteed mortgage securities, proved beneficial and aided Fund performance.

### INTEREST RATE STRATEGY (DURATION AND YIELD CURVE)

The Fund increased effective duration<sup>4</sup> relative to the BMBS in anticipation of lower market yields. Additionally, exposure to various points on the yield curve were adjusted due to expectations for yield changes at select maturities. The timing of such tactical interest rate strategy moves was inopportune and did not perform as expected. Interest rate strategy, encompassing both effective duration and yield curve, made a negative contribution to Fund performance during the reporting period. The Fund used derivatives<sup>5</sup> as a tool to assist in managing Fund duration and yield curve exposure.<sup>6</sup> The principal derivatives the Fund used for these purposes were Treasury futures contracts. For the reporting period, the use of futures contracts negatively contributed to Fund performance relative to the benchmark.

### SECTOR ALLOCATION

Allocations to non-agency residential MBS and commercial MBS, as well as a cash position were beneficial. Overall, sector allocation made a positive contribution to Fund performance.

<sup>1</sup> Please see the footnotes to the line graph under "Fund Performance and Growth of a \$10,000 Investment" below for the definition of, and more information about, the BMBS.

<sup>2</sup> The value of some mortgage-backed securities may be particularly sensitive to changes in prevailing interest rates, and although the securities are generally supported by some form of government or private insurance, there is no assurance that private guarantors or insurers will meet their obligations.

<sup>3</sup> Bond prices are sensitive to changes in interest rates, and a rise in interest rates can cause a decline in their prices.

<sup>4</sup> Duration is a measure of a security's price sensitivity to changes in interest rates. Securities with longer durations are more sensitive to changes in interest rates than securities of shorter durations.

<sup>5</sup> The Fund's use of derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional instruments.

<sup>6</sup> The yield curve is a graph showing the comparative yields of securities in a particular class according to maturity. Securities on the long end of the yield curve have longer maturities.

**FUND PERFORMANCE AND GROWTH OF A \$10,000 INVESTMENT**

The graph below illustrates the hypothetical investment of \$10,000<sup>1</sup> in the Mortgage Core Fund (the “Fund”) from December 31, 2013 to December 31, 2023, compared to the Bloomberg US Mortgage Backed Securities Index (BMBS).<sup>2</sup> The Average Annual Total Return table below shows returns averaged over the stated periods.

**GROWTH OF A \$10,000 INVESTMENT**

**Growth of \$10,000 as of December 31, 2023**

**Average Annual Total Returns for the Period Ended 12/31/2023**

	1 Year	5 Years	10 Years
Fund	5.19%	0.52%	1.62%
BMBS	5.05%	0.25%	1.38%

Performance data quoted represents past performance which is no guarantee of future results. Investment return and principal value will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Mutual fund performance changes over time and current performance may be lower or higher than what is stated. For current to the most recent month-end performance and after-tax returns, call 1-800-341-7400. Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Mutual funds are not obligations of or guaranteed by any bank and are not federally insured.

- 1 The Fund’s performance assumes the reinvestment of all dividends and distributions. The BMBS has been adjusted to reflect reinvestment of dividends on securities in the index.
- 2 The BMBS covers agency mortgage-backed pass-through securities (both fixed-rate and hybrid ARM) issued by Ginnie Mae (GNMA), Fannie Mae (FNMA) and Freddie Mac (FHLMC). The index is not adjusted to reflect sales loads, expenses or other fees that the Securities and Exchange Commission requires to be reflected in the Fund’s performance. The index is unmanaged and, unlike the Fund, is not affected by cash flows. It is not possible to invest directly in an index.

## Portfolio of Investments Summary Table (unaudited)

At December 31, 2023, the Fund's portfolio composition<sup>1</sup> was as follows:

<b>Security Type</b>	<b>Percentage of Total Net Assets</b>
U.S. Government Agency Mortgage-Backed Securities	89.9%
Non-Agency Mortgage-Backed Securities	5.3%
Asset-Backed Securities	2.0%
Agency Risk Transfer Securities	0.3%
Collateralized Mortgage Obligations	0.2%
Derivative Contracts	0.1%
Cash Equivalents <sup>2</sup>	2.2%
Other Assets and Liabilities—Net <sup>3,4</sup>	(0.0)%
<b>TOTAL</b>	<b>100%</b>

1 See the Fund's Private Offering Memorandum for a description of the principal types of securities in which the Fund invests.

2 Cash Equivalents include any investments in money market mutual funds and/or overnight repurchase agreements.

3 Assets, other than investments in securities and derivative contracts, less liabilities. See Statement of Assets and Liabilities.

4 Represents less than 0.1%.

At December 31, 2023, the Fund had the following outstanding futures contracts:

Description	Number of Contracts	Notional Value	Expiration Date	Value and Unrealized Appreciation
<b>Long Futures:</b>				
United States Treasury Notes 5-Year Long Futures	725	\$78,860,743	March 2024	\$1,799,541
United States Treasury Notes 10-Year Long Futures	675	\$76,201,172	March 2024	\$2,503,017
United States Treasury Notes 10-Year Ultra Long Futures	575	\$67,858,984	March 2024	\$3,057,568
NET UNREALIZED APPRECIATION ON FUTURES CONTRACTS				\$7,360,126

Net Unrealized Appreciation on Futures Contracts is included in "Other Assets and Liabilities—Net."

Transactions with affiliated investment companies, which are funds managed by the Adviser or an affiliate of the Adviser, during the period ended December 31, 2023, were as follows:

	Federated Hermes Government Obligations Fund, Premier Shares
Value as of 12/31/2022	\$ 117,293,489
Purchases at Cost	\$ 3,390,076,933
Proceeds from Sales	\$(3,388,209,173)
Change in Unrealized Appreciation/Depreciation	\$ —
Net Realized Gain/(Loss)	\$ —
Value as of 12/31/2023	\$ 119,161,249
Shares Held as of 12/31/2023	119,161,249
Dividend Income	\$ 11,497,853

- 1 Floating/variable note with current rate and current maturity or next reset date shown.
- 2 7-day net yield.
- 3 The cost of investments for federal tax purposes amounts to \$5,485,500,336.
- 4 Assets, other than investments in securities, less liabilities. See Statement of Assets and Liabilities.

Note: The categories of investments are shown as a percentage of total net assets at December 31, 2023.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Level 1—quoted prices in active markets for identical securities.

Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Also includes securities valued at amortized cost.

Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used, as of December 31, 2023, in valuing the Fund's assets carried at fair value:

#### Valuation Inputs

	Level 1— Quoted Prices	Level 2— Other Significant Observable Inputs	Level 3— Significant Unobservable Inputs	Total
<b>Debt Securities:</b>

# Notes to Financial Statements

December 31, 2023

## 1. ORGANIZATION

Federated Hermes Core Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "Act"), as an open-end management investment company. The Trust consists of four portfolios. The financial statements included herein are only those of Mortgage Core Fund (the "Fund"), a diversified portfolio. The financial statements of the other portfolios are presented separately. The assets of each portfolio are segregated and a shareholder's interest is limited to the portfolio in which shares are held. Each portfolio pays its own expenses. The investment objective of the Fund is to provide total return. The Fund is an investment vehicle used by other Federated Hermes funds that invest some of their assets in mortgage-backed securities. Currently, shares of the Fund are being offered for investment only to investment companies, insurance company separate accounts, common or commingled trust funds or similar organizations or parties that are "accredited investors" within the meaning of Regulation D of the Securities Act of 1933, as amended (the "1933 Act").

## 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. These policies are in conformity with U.S. generally accepted accounting principles (GAAP).

### Investment Valuation

In calculating its net asset value (NAV), the Fund generally values investments as follows:

- Fixed-income securities are fair valued using price evaluations provided by a pricing service approved by Federated Investment Management Company (the "Adviser").
- Shares of other mutual funds or non-exchange-traded investment companies are valued based upon their reported NAVs, or NAV per share practical expedient, as applicable.
- Derivative contracts listed on exchanges are valued at their reported settlement or closing price, except that options are valued at the mean of closing bid and ask quotations.
- Over-the-counter (OTC) derivative contracts are fair valued using price evaluations provided by a pricing service approved by the Adviser.
- For securities that are fair valued in accordance with procedures established by and under the general supervision of the Adviser, certain factors may be considered, such as: the last traded or purchase price of the security, information obtained by contacting the issuer or dealers, analysis of the issuer's financial statements or other available documents, fundamental analytical data, the nature and duration of restrictions on disposition, the movement of the market in which the security is normally traded, public trading in similar securities or derivative contracts of the issuer or comparable issuers, movement of a relevant index, or other factors including but not limited to industry changes and relevant government actions.

If any price, quotation, price evaluation or other pricing source is not readily available when the NAV is calculated, if the Fund cannot obtain price evaluations from a pricing service or from more than one dealer for an investment within a reasonable period of time as set forth in the Adviser's valuation policies and procedures for the Fund, or if information furnished by a pricing service, in the opinion of the Adviser's valuation committee ("Valuation Committee"), is deemed not representative of the fair value of such security, the Fund uses the fair value of the investment determined in accordance with the procedures described below. There can be no assurance that the Fund could obtain the fair value assigned to an investment if it sold the investment at approximately the time at which the Fund determines its NAV per share, and the actual value obtained could be materially different.

### Fair Valuation Procedures

Pursuant to Rule 2a-5 under the Act, the Fund's Board of Trustees (the "Trustees") has designated the Adviser as the Fund's valuation designee to perform any fair value determinations for securities and other assets held by the Fund. The Adviser is subject to the Trustees' oversight and certain reporting and other requirements intended to provide the Trustees the information needed to oversee the Adviser's fair value determinations.

The Adviser, acting through its Valuation Committee, is responsible for determining the fair value of investments for which market quotations are not readily available. The Valuation Committee is comprised of officers of the Adviser and certain of the Adviser's affiliated companies and determines fair value and oversees the calculation of the NAV. The Valuation Committee is also authorized to use pricing services to provide fair value evaluations of the current value of certain investments for purposes of calculating the NAV. The Valuation Committee employs various methods for reviewing third-party pricing-service evaluations including periodic reviews of third-party pricing services' policies, procedures and valuation methods (including key inputs, methods, models and assumptions), transactional back-testing, comparisons of evaluations of different pricing services, and review of price challenges by the Adviser based on recent market activity. In the event that market quotations and price evaluations are not available for an investment, the Valuation Committee determines the fair value of the investment in accordance with procedures adopted by the Adviser. The Trustees periodically review the fair valuations made by the Valuation Committee. The Trustees have also approved the Adviser's fair valuation and significant events procedures as part of the Fund's compliance program and will review any changes made to the procedures.

Factors considered by pricing services in evaluating an investment include the yields or prices of investments of comparable quality, coupon, maturity, call rights and other potential prepayments, terms and type, reported transactions, indications as to values from dealers and general market conditions. Some pricing services provide a single price evaluation reflecting the bid-side of the market for an investment (a "bid" evaluation). Other pricing services offer both bid evaluations and price evaluations indicative of a price between

the prices bid and ask for the investment (a “mid” evaluation). The Fund normally uses bid evaluations for any U.S. Treasury and Agency securities, mortgage-backed securities and municipal securities. The Fund normally uses mid evaluations for any other types of fixed-income securities and any OTC derivative contracts. In the event that market quotations and price evaluations are not available for an investment, the fair value of the investment is determined in accordance with procedures adopted by the Adviser.

### **Repurchase Agreements**

The Fund may invest in repurchase agreements for short-term liquidity purposes. It is the policy of the Fund to require the other party to a repurchase agreement to transfer to the Fund’s custodian or sub-custodian eligible securities or cash with a market value (after transaction costs) at least equal to the repurchase price to be paid under the repurchase agreement. The eligible securities are transferred to accounts with the custodian or sub-custodian in which the Fund holds a “securities entitlement” and exercises “control” as those terms are defined in the Uniform Commercial Code. The Fund has established procedures for monitoring the market value of the transferred securities and requiring the transfer of additional eligible securities if necessary to equal at least the repurchase price. These procedures also allow the other party to require securities to be transferred from the account to the extent that their market value exceeds the repurchase price or in exchange for other eligible securities of equivalent market value.

The insolvency of the other party or other failure to repurchase the securities may delay the disposition of the underlying securities or cause the Fund to receive less than the full repurchase price. Under the terms of the repurchase agreement, any amounts received by the Fund in excess of the repurchase price and related transaction costs must be remitted to the other party.

The Fund may enter into repurchase agreements in which eligible securities are transferred into joint trading accounts maintained by the custodian or sub-custodian for investment companies and other clients advised by the Fund’s Adviser and its affiliates. The Fund will participate on a pro rata basis with the other investment companies and clients in its share of the securities transferred under such repurchase agreements and in its share of proceeds from any repurchase or other disposition of such securities.

### **Investment Income, Gains and Losses, Expenses and Distributions**

Investment transactions are accounted for on a trade-date basis. Realized gains and losses from investment transactions are recorded on an identified-cost basis. Interest income and expenses are accrued daily. Dividend income and distributions to shareholders are recorded on the ex-dividend date. Distributions of net investment income, if any, are declared daily and paid monthly. Non-cash dividends included in dividend income, if any, are recorded at fair value. Amortization/accretion of premium and discount is included in investment income. Gains and losses realized on principal payment of mortgage-backed securities (paydown gains and losses) are classified as part of investment income.

### **Federal Taxes**

It is the Fund’s policy to comply with the Subchapter M provision of the Internal Revenue Code of 1986 (the “Code”) and to distribute to shareholders each year substantially all of its income. Accordingly, no provision for federal income tax is necessary. As of and during the year ended December 31, 2023, the Fund did not have a liability for any uncertain tax positions. The Fund recognizes interest and penalties, if any, related to tax liabilities as income tax expense in the Statement of Operations. As of December 31, 2023, tax years 2020 through 2023 remain subject to examination by the Fund’s major tax jurisdictions, which include the United States of America and the Commonwealth of Massachusetts.

### **When-Issued and Delayed-Delivery Transactions**

The Fund may engage in when-issued or delayed-delivery transactions. The Fund records when-issued securities on the trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed-delivery basis are marked to market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

The Fund may transact in To Be Announced Securities (TBAs). As with other delayed-delivery transactions, a seller agrees to issue TBAs at a future date. However, the seller does not specify the particular securities to be delivered. Instead, the Fund agrees to accept any security that meets specified terms such as issuer, interest rate and terms of underlying mortgages. The Fund records TBAs on the trade date utilizing information associated with the specified terms of the transaction as opposed to the specific mortgages. TBAs are marked to market daily and begin earning interest on the settlement date. Losses may occur due to the fact that the actual underlying mortgages received may be less favorable than those anticipated by the Fund.

### **Dollar-Roll Transactions**

The Fund engages in dollar-roll transactions in which the Fund sells mortgage-backed securities with a commitment to buy similar (same type, coupon and maturity), but not identical mortgage-backed securities on a future date. Both securities involved are TBA mortgage-backed securities. The Fund treats dollar-roll transactions as purchases and sales. Dollar-rolls are subject to interest rate risks and credit risks.

### **Futures Contracts**

The Fund purchases and sells financial futures contracts to manage duration and sector/asset class risks. Upon entering into a financial futures contract with a broker, the Fund is required to deposit with a broker, either U.S. government securities or a specified amount of cash, which is shown as due from broker in the Statement of Assets and Liabilities. Futures contracts are valued daily and unrealized gains or losses are recorded in a “variation margin” account. The Fund receives from or pays to the broker a specified amount of cash based upon changes in the variation margin account. When a contract is closed, the Fund recognizes a realized gain or loss. Futures contracts have market risks, including the risk that the change in the value of the contract may not correlate with the changes in the value of the underlying securities. There is minimal counterparty risk to the Fund since futures contracts are exchange traded and the exchange’s clearinghouse, as counterparty to all exchange-traded futures contracts, guarantees the futures contracts against default.

Futures contracts outstanding at period end are listed after the Fund's Portfolio of Investments.

The average notional value of long and short futures contracts held by the Fund throughout the period was \$146,422,611 and \$10,386,538, respectively. This is based on amounts held as of each month-end throughout the fiscal period.

### Restricted Securities

The Fund may purchase securities which are considered restricted. Restricted securities are securities that either: (a) cannot be offered for public sale without first being registered, or being able to take advantage of an exemption from registration, under the 1933 Act; or (b) are subject to contractual restrictions on public sales. In some cases, when a security cannot be offered for public sale without first being registered, the issuer of the restricted security has agreed to register such securities for resale, at the issuer's expense, either upon demand by the Fund or in connection with another registered offering of the securities. Many such restricted securities may be resold in the secondary market in transactions exempt from registration. Restricted securities may be determined to be liquid under criteria established by the Trustees. The Fund will not incur any registration costs upon such resales. The Fund's restricted securities, like other securities, are priced in accordance with procedures established by and under the general supervision of the Adviser.

### Additional Disclosure Related to Derivative Instruments

#### Fair Value of Derivative Instruments

	Assets	
	Statement of Assets and Liabilities Location	Fair Value
Derivatives not accounted for as hedging instruments under ASC Topic 815		
Interest rate contracts	Receivable for variation margin on futures contracts	\$7,360,126*

\* Includes net cumulative appreciation of futures contracts as reported in the footnotes to the Portfolio of Investments. Only the current day's variation margin is reported within the Statement of Assets and Liabilities.

### The Effect of Derivative Instruments on the Statement of Operations for the Year Ended December 31, 2023

#### Amount of Realized Gain or (Loss) on Derivatives Recognized in Income

	Futures Contracts
Interest rate contracts	\$(3,964,207)

#### Change in Unrealized Appreciation or (Depreciation) on Derivatives Recognized in Income

	Futures Contracts
Interest rate contracts	\$8,502,976

### Other

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets, liabilities, expenses and revenues reported in the financial statements. Actual results could differ materially from those estimated. The Fund applies investment company accounting and reporting guidance.

### 3. SHARES OF BENEFICIAL INTEREST

The following table summarizes share activity:

	Year Ended 12/31/2023	Year Ended 12/31/2022
Shares sold	328,676,656	229,727,001
Shares issued to shareholders in payment of distributions declared	4,270,767	1,598,040
Shares redeemed	(59,994,883)	(179,640,289)
NET CHANGE RESULTING FROM FUND SHARE TRANSACTIONS	272,952,540	51,684,752

#### 4. FEDERAL TAX INFORMATION

The tax character of distributions as reported on the Statement of Changes in Net Assets for the years ended December 31, 2023 and 2022, was as follows:

	2023	2022
Ordinary income	\$199,751,824	\$102,200,096

As of December 31, 2023, the components of distributable earnings on a tax-basis were as follows:

Undistributed ordinary income	\$ 358,486
Net unrealized appreciation	\$ 26,587,638
Capital loss carryforwards	\$(443,189,206)
TOTAL	\$(416,243,082)

At December 31, 2023, the cost of investments for federal tax purposes was \$5,485,500,336. The net unrealized appreciation of investments for federal tax purposes was \$26,587,638. This consists of unrealized appreciation from investments for those securities having an excess of value over cost of \$89,678,150 and unrealized depreciation from investments for those securities having an excess of cost over value of \$63,090,512. The amounts presented are inclusive of derivative contracts. The difference between book-basis and tax-basis net unrealized appreciation is attributable to differing treatments for mark to market of derivative instruments.

As of December 31, 2023, the Fund had a capital loss carryforward of \$443,189,206 which will reduce the Fund's taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Code, thereby reducing the amount of distributions to shareholders which would otherwise be necessary to relieve the Fund of any liability for federal income tax. Pursuant to the Code, these net capital losses retain their character as either short-term or long-term and do not expire.

The following schedule summarizes the Fund's capital loss carryforwards:

Short-Term	Long-Term	Total
\$289,842,586	\$153,346,620	\$443,189,206

#### 5. INVESTMENT ADVISER FEE AND OTHER TRANSACTIONS WITH AFFILIATES

##### Investment Adviser Fee

The Adviser, subject to the direction of the Trustees, provides investment adviser services at no fee, because all investors in the Fund are other Federated Hermes Funds, insurance company separate accounts, common or commingled trust funds or similar organizations or entities that are "accredited investors" within the meaning of Regulation D of the 1933 Act. The Fund pays operating expenses associated with the operation and maintenance of the Fund (excluding fees and expenses that may be charged by the Adviser and its affiliates). Although not contractually obligated to do so, the Adviser intends to voluntarily reimburse operating expenses (excluding extraordinary expenses and proxy-related expenses paid by the Fund, if any) such that the Fund will only bear such expenses in an amount of up to 0.15% of the Fund's average daily net assets. The Adviser can modify or terminate this voluntary reimbursement at any time at its sole discretion.

##### Administrative Fee

Federated Administrative Services (FAS), under the Administrative Services Agreement, provides the Fund with administrative personnel and services. FAS does not charge the Fund a fee but is entitled to reimbursement for certain out-of-pocket expenses.

##### Directors'/Trustees' and Miscellaneous Fees

Certain Officers and Trustees of the Fund are Officers and Directors or Trustees of certain of the above companies. To efficiently facilitate payment, Independent Directors'/Trustees' fees and certain expenses related to conducting meetings of the Directors/Trustees and other miscellaneous expenses are paid by an affiliate of the Adviser which in due course are reimbursed by the Fund. These expenses related to conducting meetings of the Directors/Trustees and other miscellaneous expenses may be included in Accrued and Miscellaneous Expenses on the Statement of Assets and Liabilities and Statement of Operations, respectively.

##### Affiliated Shares of Beneficial Interest

As of December 31, 2023, a majority of the shares of beneficial interest outstanding are owned by other affiliated investment companies.

#### 6. INVESTMENT TRANSACTIONS

Purchases and sales of investments, excluding long-term U.S. government securities and short-term obligations, for the year ended December 31, 2023, were as follows:

Purchases	\$225,120,830
Sales	\$ 59,363,574

## **7. LINE OF CREDIT**

The Fund participates with certain other Federated Hermes Funds, on a several basis, in an up to \$500,000,000 unsecured, 364-day, committed, revolving line of credit (LOC) agreement dated June 21, 2023. The LOC was made available to temporarily finance the repurchase or redemption of shares of the Fund, failed trades, payment of dividends, settlement of trades and for other short-term, temporary or emergency general business purposes. The Fund cannot borrow under the LOC if an inter-fund loan is outstanding. The Fund's ability to borrow under the LOC also is subject to the limitations of the Act and various conditions precedent that must be satisfied before the Fund can borrow. Loans under the LOC are charged interest at a fluctuating rate per annum equal to (a) the highest, on any day, of (i) the federal funds effective rate, (ii) the published secured overnight financing rate plus an assigned percentage, and (iii) 0.0%, plus (b) a margin. Any fund eligible to borrow under the LOC pays its pro rata share of a commitment fee based on the amount of the lenders' commitment that has not been utilized, quarterly in arrears and at maturity. As of December 31, 2023, the Fund had no outstanding loans. During the year ended December 31, 2023, the Fund did not utilize the LOC.

## **8. INTERFUND LENDING**

Pursuant to an Exemptive Order issued by the Securities and Exchange Commission, the Fund, along with other funds advised by subsidiaries of Federated Hermes, Inc., may participate in an interfund lending program. This program provides an alternative credit facility allowing the Fund to borrow from other participating affiliated funds. As of December 31, 2023, there were no outstanding loans. During the year ended December 31, 2023, the program was not utilized.

## **9. INDEMNIFICATIONS**

Under the Fund's organizational documents, its Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund (other than liabilities arising out of their willful misfeasance, bad faith, gross negligence or reckless disregard of their duties to the Fund). In addition, in the normal course of business, the Fund provides certain indemnifications under arrangements with third parties. Typically, obligations to indemnify a third party arise in the context of an arrangement entered into by the Fund under which the Fund agrees to indemnify such third party for certain liabilities arising out of actions taken pursuant to the arrangement, provided the third party's actions are not deemed to have breached an agreed-upon standard of care (such as willful misfeasance, bad faith, gross negligence or reckless disregard of their duties under the contract). The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet arisen. The Fund does not anticipate any material claims or losses pursuant to these arrangements at this time, and accordingly expects the risk of loss to be remote.

## **10. FEDERAL TAX INFORMATION (UNAUDITED)**

100% of total ordinary income distributions qualified as business interest income for purposes of 163(j) and the regulations thereunder.

# Report of Independent Registered Public Accounting Firm

## TO THE SHAREHOLDERS AND THE BOARD OF TRUSTEES OF MORTGAGE CORE FUND:

### Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Mortgage Core Fund (the “Fund”) (one of the portfolios constituting Federated Hermes Core Trust (the “Trust”)), including the portfolio of investments, as of December 31, 2023, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the portfolios constituting Federated Hermes Core Trust) at December 31, 2023, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

### Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2023, by correspondence with the custodian, brokers, and others; when replies were not received from brokers or others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

*Ernst & Young LLP*

We have served as the auditor of one or more Federated Hermes investment companies since 1979.

Boston, Massachusetts

February 23, 2024

## Shareholder Expense Example (unaudited)

As a shareholder of the Fund, you incur ongoing costs, including to the extent applicable, management fees, distribution (12b-1) fees and/or other service fees and other Fund expenses. This Example is intended to help you to understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. It is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from July 1, 2023 to December 31, 2023.

### ACTUAL EXPENSES

The first section of the table below provides information about actual account values and actual expenses. You may use the information in this section, together with the amount you invested, to *estimate* the expenses that you incurred over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first section under the heading entitled “Expenses Paid During Period” to estimate the expenses attributable to your investment during this period.

### HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second section of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an *assumed* rate of return of 5% per year before expenses, which is not the Fund’s actual return. Thus, you should *not* use the hypothetical account values and expenses to estimate the actual ending account balance or your expenses for the period. Rather, these figures are required to be provided to enable you to compare the ongoing costs of investing in the Fund with other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only. Therefore, the second section of the table is useful in comparing ongoing costs only, and will not help you determine the relative *total* costs of owning different funds.

	Beginning Account Value 7/1/2023	Ending Account Value 12/31/2023	Expenses Paid During Period <sup>1</sup>
<b>Actual</b>	\$1,000	\$1,033.50	\$0.10
<b>Hypothetical (assuming a 5% return before expenses)</b>	\$1,000	\$1,025.10	\$0.10

<sup>1</sup> Expenses are equal to the Fund’s annualized net expense ratio of 0.02%, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half-year period).

## Board of Trustees and Trust Officers

The Board of Trustees is responsible for managing the Trust's business affairs and for exercising all the Trust's powers except those reserved for the shareholders. The following tables give information about each Trustee and the senior officers of the Fund. Where required, the tables separately list Trustees who are "interested persons" of the Fund (i.e., "Interested" Trustees) and those who are not (i.e., "Independent" Trustees). Unless otherwise noted, the address of each person listed is 1001 Liberty Avenue, Pittsburgh, PA 15222-3779. The address of all Independent Trustees listed is 4000 Ericsson Drive, Warrendale, PA 15086-7561; Attention: Mutual Fund Board. As of December 31, 2023, the Trust comprised five portfolio(s), and the Federated Hermes Fund Family consisted of 33 investment companies (comprising 101 portfolios). Unless otherwise noted, each Officer is elected annually. Unless otherwise noted, each Trustee oversees all portfolios in the Federated Hermes Fund Family and serves for an indefinite term. The Fund's Statement of Additional Information includes additional information about the Trust and the Trustees and is available, without charge and upon request, by calling 1-800-341-7400, Option #4.

(investment advisory subsidiary of Federated); Senior Vice President, Global Portfolio Management Services Division; Senior Vice President, Federated Investment Management Company and Passport Research, Ltd.; Senior Managing Director and Portfolio Manager, Prudential Investments.

## Evaluation and Approval of Advisory Contract – May 2023

### **FEDERATED HERMES MORTGAGE STRATEGY PORTFOLIO (THE “FUND”)**

At its meetings in May 2023 (the “May Meetings”), the Fund’s Board of Trustees (the “Board”), including those Trustees who are not “interested persons” of the Fund, as defined in the Investment Company Act of 1940 (the “Independent Trustees”), reviewed and unanimously approved the continuation of the investment advisory contract between the Fund and Federated Investment Management Company (the “Adviser”) (the “Contract”) for an additional one-year term. The Board’s determination to approve the continuation of the Contract reflects the exercise of its business judgment after considering all of the information and factors believed to be relevant and appropriate on whether to approve the continuation of the existing arrangement. The information, factors and conclusions that formed the basis for the Board’s approval are summarized below.

The Board considered that the Fund is distinctive in that it is used to implement particular investment strategies that are offered to investors in certain separately managed or wrap fee accounts or programs, or certain other discretionary investment accounts, and may also be offered to other funds (each, a “Federated Hermes Fund” and, collectively the “Federated Hermes Funds”) advised by the Adviser or its affiliates (collectively, “Federated Hermes”).

In addition, the Board considered that the Adviser does not charge an investment advisory fee for its services, although Federated Hermes may receive compensation for managing assets invested in the Fund.

### **Information Received and Review Process**

At the request of the Independent Trustees, the Fund’s Chief Compliance Officer (the “CCO”) furnished to the Board in advance of its May Meetings an independent written evaluation of the Fund’s management fee (the “CCO Fee Evaluation Report”). The Board considered the CCO Fee Evaluation Report, along with other information, in evaluating the reasonableness of the Fund’s management fee and in determining to approve the continuation of the Contract. The CCO, in preparing the CCO Fee Evaluation Report, has the authority to retain consultants, experts or staff as reasonably necessary to assist in the performance of his duties, reports directly to the Board, and can be terminated only with the approval of a majority of the Independent Trustees. At the request of the Independent Trustees, the CCO Fee Evaluation Report followed the same general approach and covered the same topics as that of the report that had previously been delivered by the CCO in his capacity as “Senior Officer” prior to the elimination of the Senior Officer position in December 2017.

In addition to the extensive materials that comprise and accompany the CCO Fee Evaluation Report, the Board considered information specifically prepared in connection with the approval of the continuation of the Contract that was presented at the May Meetings. In this regard, in the months preceding the May Meetings, the Board requested and reviewed written responses and supporting materials prepared by Federated Hermes in response to requests posed to Federated Hermes by independent legal counsel on behalf of the Independent Trustees encompassing a wide variety of topics, including those summarized below. The Board also considered such additional matters as the Independent Trustees deemed reasonably necessary to evaluate the Contract, which included detailed information about the Fund and Federated Hermes furnished to the Board at its meetings throughout the year and in between regularly scheduled meetings on particular matters as the need arose.

The Board’s consideration of the Contract included review of materials and information covering the following matters, among others: the nature, quality and extent of the advisory and other services provided to the Fund by Federated Hermes; Federated Hermes’ business and operations; the Adviser’s investment philosophy, personnel and processes; the Fund’s investment objectives and strategies; the Fund’s short-term and long-term performance (in absolute terms, both on a gross basis and net of expenses, and relative to the Fund’s particular investment program and a group of its peer funds and/or its benchmark, as appropriate); the Fund’s fees and expenses, including the advisory fee and the overall expense structure of the Fund, with due regard for contractual or voluntary expense limitations (if any); the financial condition of Federated Hermes; the Adviser’s profitability with respect to managing the Fund; distribution and sales activity for the Fund; and the use and allocation of brokerage commissions derived from trading the Fund’s portfolio securities (if any).

The Board also considered judicial decisions concerning allegedly excessive investment advisory fees charged to other registered funds in evaluating the Contract. Using these judicial decisions as a guide, the Board observed that the following factors may be relevant to an adviser’s fiduciary duty with respect to its receipt of compensation from a fund: (1) the nature and quality of the services provided by the adviser to the fund and its shareholders, including the performance of the fund, its benchmark and comparable funds; (2) the adviser’s cost of providing the services and the profitability to the adviser of providing advisory services to the fund; (3) the extent to which the adviser may realize “economies of scale” as the fund grows larger and, if such economies of scale exist, whether they have been appropriately shared with the fund and its shareholders or the family of funds; (4) any “fall-out” benefits that accrue to the adviser because of its relationship with the fund, including research services received from brokers that execute fund trades and any fees paid to affiliates of the adviser for services rendered to the fund); (5) comparative fee and expense structures,

including a comparison of management fees paid to the adviser with those paid by similar funds managed by the same adviser or other advisers as well as management fees charged to institutional and other advisory clients of the same adviser for what might be viewed as like services; and (6) the extent of care, conscientiousness and independence with which the fund's board members perform their duties and their expertise, (including whether they are fully informed about all facts the board deems relevant to its consideration of the adviser's services and fees. The Board noted that the Securities and Exchange Commission ("SEC") disclosure requirements regarding the basis for a fund board's approval of the fund's investment advisory contract generally align with the factors listed above. The Board was guided by these factors in its evaluation of the Contract to the extent it considered them to be appropriate and relevant, as discussed further below. The Board considered and weighed these factors in light of its substantial accumulated experience in governing the Fund and working with Federated Hermes on matters relating to the oversight of the other Federated Hermes Funds.

In determining to approve the continuation of the Contract, the members of the Board reviewed and evaluated information and factors they believed to be relevant and appropriate through the exercise of their reasonable business judgment. While individual members of the Board may have weighed certain factors differently, the Board's determination to approve the continuation of the Contract was based on a comprehensive consideration of all information provided to the Board throughout the year and specifically with respect to the continuation of the Contract. The Board recognized that its evaluation process is evolutionary and that the factors considered and emphasis placed on relevant factors may change in recognition of changing circumstances in the registered fund marketplace. The Independent Trustees were assisted throughout the evaluation process by independent legal counsel. In connection with their deliberations at the May Meetings, the Independent Trustees met separately in executive session with their independent legal counsel and without management present to review the relevant materials and consider their responsibilities under applicable laws. In addition, senior management representatives of Federated Hermes also met with the Independent Trustees and their independent legal counsel to discuss the materials and presentations furnished to the Board at the May Meetings. The Board considered the approval of the Contract for the Fund as part of its consideration of agreements for funds across the family of Federated Hermes Funds, but its approvals were made on a fund-by-fund basis.

#### **Nature, Extent and Quality of Services**

The Board considered the nature, extent and quality of the services provided to the Fund by the Adviser and the resources of Federated Hermes dedicated to the Fund. In this regard, the Board evaluated, among other things, the terms of the Contract and the range of services provided to the Fund by Federated Hermes. The Board considered the Adviser's personnel, investment philosophy and process, investment research capabilities and resources, trade operations capabilities, experience and performance track record. The Board reviewed the qualifications, backgrounds and responsibilities of the portfolio management team primarily responsible for the day-to-day management of the Fund and Federated Hermes' ability and experience in attracting and retaining qualified personnel to service the Fund. The Board considered the trading operations by the Adviser, including the execution of portfolio transactions and the selection of brokers for those transactions. The Board also considered the Adviser's ability to deliver competitive investment performance for the Fund when compared to the Fund's benchmark index, which was deemed by the Board to be a useful indicator of how the Adviser is executing the Fund's investment program.

In addition, the Board considered the financial resources and overall reputation of Federated Hermes and its willingness to consider and make investments in personnel, infrastructure, technology, cybersecurity, business continuity planning and operational enhancements that are designed to benefit the Federated Hermes Funds. The Board noted that the significant acquisition of Hermes Fund Managers Limited by Federated Hermes has deepened Federated Hermes' investment management expertise and capabilities and expanded its access to analytical resources related to environmental, social and governance ("ESG") factors and issuer engagement on ESG matters. The Board considered Federated Hermes' oversight of the securities lending program for the Federated Hermes Funds that engage in securities lending and noted the income earned by the Federated Hermes Funds that participate in such program. In addition, the Board considered the quality of Federated Hermes' communications with the Board and responsiveness to Board inquiries and requests made from time to time with respect to the Federated Hermes Funds. The Board also considered that Federated Hermes is responsible for providing the Federated Hermes Funds' officers.

The Board received and evaluated information regarding Federated Hermes' regulatory and compliance environment. The Board considered Federated Hermes' compliance program and compliance history and reports from the CCO about Federated Hermes' compliance with applicable laws and regulations, including responses to regulatory developments and any compliance or other issues raised by regulatory agencies. The Board also noted Federated Hermes' support of the Federated Hermes Funds' compliance control structure and the compliance-related resources devoted by Federated Hermes in support of the Fund's obligations pursuant to Rule 38a-1 under the Investment Company Act of 1940, including Federated Hermes' commitment to respond to rulemaking and other regulatory initiatives of the SEC. The Board considered Federated Hermes' approach to internal audits and risk management with respect to the Federated Hermes

Funds and its day-to-day oversight of the Federated Hermes Funds' compliance with their investment objectives and policies as well as with applicable laws and regulations, noting that regulatory and other developments had over time led, and continue to lead, to an increase in the scope of Federated Hermes' oversight in this regard, including in connection with the implementation of new rules on derivatives risk management and fair valuation.

The Board also considered the implementation of Federated Hermes' business continuity plans. In addition, the Board noted Federated Hermes' commitment to maintaining high quality systems and expending substantial resources to prepare for and respond to ongoing changes due to the market, regulatory and control environments in which the Fund and its service providers operate.

The Board considered Federated Hermes' efforts to provide shareholders in the Federated Hermes Funds with a comprehensive array of funds with different investment objectives, policies and strategies. The Board considered the expenses that Federated Hermes had incurred, as well as the entrepreneurial and other risks assumed by Federated Hermes, in sponsoring and providing on-going services to new funds to expand these opportunities for shareholders. The Board noted the benefits to shareholders of being part of the family of Federated Hermes Funds, which include the general right to exchange investments between the same class of shares without the incurrence of additional sales charges.

Based on these considerations, the Board concluded that it was satisfied with the nature, extent and quality of the services provided by the Adviser to the Fund.

### **Fund Investment Performance**

The Board considered the investment performance of the Fund. In evaluating the Fund's investment performance, the Board considered performance results in light of the Fund's investment objective, strategies and risks. The Board considered detailed investment reports on, and the Adviser's analysis of, the Fund's performance over different time periods that were provided to the Board throughout the year and in connection with the May Meetings.

For the one-year, three-year and five-year periods ended December 31, 2022, the Fund outperformed its benchmark index.

Based on these considerations, the Board concluded that it had continued confidence in the Adviser's overall capabilities to manage the Fund.

### **Fund Expenses**

The Board considered that the Adviser does not charge an investment advisory fee to this Fund for its services and has agreed to reimburse the Fund's expenses so that total operating expenses are zero. Because the Adviser does not charge the Fund an investment advisory fee and the Fund's total operating expenses will remain at zero due to reimbursement of expenses, the Board noted that it did not consider fee comparisons to other registered funds or other types of clients of Federated Hermes to be relevant to its evaluation.

### **Profitability**

The Board received and considered profitability information furnished by Federated Hermes. The Board considered that the Adviser does not charge an investment advisory fee to the Fund and noted, therefore, that the Adviser does not profit from providing advisory services to the Fund under the Contract.

The Board also reviewed information compiled by Federated Hermes comparing its profitability information to other publicly held fund management companies, including information regarding profitability trends over time. The Board recognized that profitability comparisons among fund management companies are difficult because of the variation in the type of comparative information that is publicly available, and the profitability of any fund management company is affected by numerous factors. The Board considered the CCO's conclusion that, based on such profitability information, Federated Hermes' profit margins did not appear to be excessive. The Board also considered the CCO's view that Federated Hermes appeared financially sound, with the resources necessary to fulfill its obligations under its contracts with the Federated Hermes Funds.

### **Economies of Scale**

Because of the distinctive nature of the Fund as primarily an internal product with an advisory fee of zero, the Board noted that it did not consider the assessment of whether economies of scale would be realized if the Fund were to grow to a sufficient size to be particularly relevant to its evaluation.

### **Other Benefits**

The Board considered information regarding the compensation and other ancillary (or "fall-out") benefits that Federated Hermes derived from its relationships with the Federated Hermes Funds.

The Board noted that, although an affiliate of the Adviser charges the Fund an administrative services fee and also the affiliate is entitled to reimbursement for certain out-of-pocket expenses incurred in providing administrative services to the Fund, Federated Hermes reimburses all such fees and expenses to the Fund.

In connection with the Board's governance of other Federated Hermes Funds, the Board noted that, in addition to receiving advisory fees under the Federated Hermes Funds' investment advisory contracts, Federated Hermes' affiliates also receive fees for providing other services to the Federated Hermes Funds under separate service contracts including for serving as the Federated Hermes Funds' administrator and distributor. In this regard, the Board considered that certain of Federated Hermes' affiliates provide distribution and shareholder services to the Federated Hermes Funds, for which they may be compensated through distribution and servicing fees paid pursuant to Rule 12b-1 plans or otherwise. The Board also received and considered information detailing the benefits, if any, that Federated Hermes may derive from its receipt of research services from brokers who execute portfolio trades for the Federated Hermes Funds.

### **Conclusions**

The Board considered: (i) the CCO's conclusion that his observations and the information accompanying the CCO Fee Evaluation Report show that the management fee for the Fund is reasonable; and (ii) the CCO's recommendation that the Board approve the management fee. The Board noted that, under these circumstances, no changes were recommended to, and no objection was raised to the continuation of, the Contract by the CCO. The CCO also recognized that the Board's evaluation of the Federated Hermes Funds' advisory and sub-advisory arrangements is a continuing and ongoing process that is informed by the information that the Board requests and receives from management throughout the course of the year and, in this regard, the CCO noted certain items for future reporting to the Board or further consideration by management as the Board continues its ongoing oversight of the Federated Hermes Funds.

On the basis of the information and factors summarized above, among other information and factors deemed relevant by the Board, and the evaluation thereof, the Board, including the Independent Trustees, unanimously voted to approve the continuation of the Contract. The Board based its determination to approve the Contract on the totality of the circumstances and relevant factors and with a view of past and future long-term considerations. Not all of the factors and considerations identified above were necessarily deemed to be relevant to the Fund, nor did the Board consider any one of them to be determinative.

## Liquidity Risk Management Program – Annual Evaluation of Adequacy and Effectiveness

In accordance with Rule 22e-4 under the Investment Company Act of 1940, as amended (the “Liquidity Rule”), Federated Hermes Managed Pool Series (the “Trust”) has adopted and implemented a liquidity risk management program (the “Program”) for Federated Hermes Mortgage Strategy Portfolio (the “Fund” and, collectively with the other non-money market open-end funds advised by Federated Hermes, the “Federated Hermes Funds”). The Program seeks to assess and manage the Fund’s liquidity risk. “Liquidity risk” is defined under the Liquidity Rule as the risk that the Fund is unable to meet redemption requests without significantly diluting remaining investors’ interests in the Fund. The Board of Trustees of the Trust (the “Board”) has approved the designation of each Federated Hermes Fund’s investment adviser as the administrator for the Program (the “Administrator”) with respect to that Fund. The Administrator, in turn, has delegated day-to-day responsibility for the administration of the Program to multiple Liquidity Risk Management Committees, which are comprised of representatives from certain divisions within Federated Hermes.

The Program is comprised of various components designed to support the assessment and/or management of liquidity risk, including: (1) the periodic assessment (no less frequently than annually) of certain factors that influence the Fund’s liquidity risk; (2) the periodic classification (no less frequently than monthly) of the Fund’s investments into one of four liquidity categories that reflect an estimate of their liquidity under current market conditions; (3) a 15% limit on the acquisition of “illiquid investments” (as defined under the Liquidity Rule); (4) to the extent a Fund does not invest primarily in “highly liquid investments” (as defined under the Liquidity Rule), the determination of a minimum percentage of the Fund’s assets that generally will be invested in highly liquid investments (an “HLIM”); (5) if a Fund has established an HLIM, the periodic review (no less frequently than annually) of the HLIM and the adoption of policies and procedures for responding to a shortfall of the Fund’s highly liquid investments below its HLIM; and (6) periodic reporting to the Board.

At its meetings in May 2023, the Board received and reviewed a written report (the “Report”) from the Federated Hermes Funds’ Chief Compliance Officer and Chief Risk Officer, on behalf of the Administrator, concerning the operation of the Program for the period from April 1, 2022 through March 31, 2023 (the “Period”). The Report addressed the operation of the Program and assessed the adequacy and effectiveness of its implementation, including, where applicable, the operation of any HLIM established for a Federated Hermes Fund. There were no material changes to the Program during the Period. The Report summarized the operation of the Program and the information and factors considered by the Administrator in assessing whether the Program has been adequately and effectively implemented with respect to the Federated Hermes Funds. Such information and factors included, among other things:

- confirmation that it was not necessary for the Fund to utilize, and the Fund did not utilize, any alternative funding sources that were available to the Federated Hermes Funds during the Period, such as the Federated Hermes Funds’ interfund lending facility, redemptions in-kind, reverse repurchase agreement transactions, redemptions delayed beyond the normal T+1 settlement but within seven days of the redemption request, and committed lines of credit;
- the periodic classifications of the Fund’s investments into one of four liquidity categories and the methodologies and inputs used to classify the investments, including the Fund’s reasonably anticipated trade size;
- the analysis received from a third-party liquidity assessment vendor that is taken into account in the process of determining the liquidity classifications of the Fund’s investments, and the results of the Administrator’s evaluation of the services performed by the vendor in support of this process, including the Administrator’s view that the methodologies utilized by the vendor continue to be appropriate;
- the fact that the Fund invested primarily in highly liquid investments during the Period and, therefore, was not required to establish, and has not established, an HLIM and the operation of the procedures for monitoring the status of the Fund as investing primarily in highly liquid investments;
- the fact that the Fund invested no more than 15% of its assets in illiquid investments during the Period, and the operation of the procedures for monitoring this limit;
- the fact that there were no liquidity events during the Period that materially affected the Fund’s liquidity risk;
- the impact on liquidity and management of liquidity risk, if any, caused by extended non-U.S. market closures and confirmation that there were no issues for any of the affected Federated Hermes Funds in meeting shareholder redemptions at any time during these temporary non-U.S. market closures.

Based on this review, the Administrator concluded that the Program is operating effectively to assess and manage the Fund’s liquidity risk, and that the Program has been and continues to be adequately and effectively implemented to monitor and, as applicable, respond to the Fund’s liquidity developments.

## Voting Proxies on Fund Portfolio Securities

A description of the policies and procedures that the Fund uses to determine how to vote proxies, if any, relating to securities held in the Fund's portfolio, as well as a report on "Form N-PX" of how the Fund voted any such proxies during the most recent 12-month period ended June 30, are available, without charge and upon request, by calling 1-800-341-7400, Option #4. A report on "Form N-PX" of how the Fund voted any such proxies during the most recent 12-month period ended June 30 is available via the Proxy Voting Record Report (Form N-PX) link associated with the Fund at [FederatedHermes.com/us/FundInformation](https://FederatedHermes.com/us/FundInformation). Select a product name, then click "Documents" and click on "Proxy Voting Record Report." Form N-PX filings are also available at the SEC's website at [sec.gov](https://sec.gov).

## Quarterly Portfolio Schedule

Each fiscal quarter, the Fund will file with the SEC a complete schedule of its monthly portfolio holdings on "Form N-PORT." The Fund's holdings as of the end of the third month of every fiscal quarter, as reported on Form N-PORT, will be publicly available on the SEC's website at [sec.gov](https://sec.gov) within 60 days of the end of the fiscal quarter upon filing. You may also access this information at [FederatedHermes.com/us](https://FederatedHermes.com/us). Select a product name, then click "Documents" and select "Form N-PORT."

Notes

*Mutual funds are not bank deposits or obligations, are not guaranteed by any bank and are not insured or guaranteed by the U.S. government, the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other government agency. Investment in mutual funds involves investment risk, including the possible loss of principal.*

This Report is authorized for distribution to prospective investors only when preceded or accompanied by the Fund's Prospectus, which contains facts concerning its objective and policies, management fees, expenses and other information.
