Federated Hermes Short Duration Corporate ETF

Fund Established 2021

A Portfolio of Federated Hermes ETF Trust

Dear Valued Shareholder,

We are pleased to present the Annual Shareholder Report for your fund covering the period from May 1, 2022 through April 30, 2023. This report includes Management's Discussion of Fund Performance, a complete listing of your fund's holdings, performance information and financial statements along with other important fund information.

As a global leader in active, responsible investment management, Federated Hermes is guided by our conviction that responsible investing is the best way to create wealth over the long term. The company provides capabilities across a wide range of asset classes to investors around the world.

In addition, FederatedHermes.com/us offers quick and easy access to valuable resources that include timely fund updates, economic and market insights from our investment strategists and financial planning tools. You can also access many of those insights by following us on Twitter (@FederatedHermes) and LinkedIn.

Thank you for investing with us. We hope you find this information useful and look forward to keeping you informed.

Sincerely,

J. Christopher Donahue, President

Management’s Discussion of Fund Performance

The total return of Federated Hermes Short Duration Corporate ETF (the “Fund”), based on net asset value for the annual reporting period ended April 30, 2023, was 1.51%. The total return based on the market price of the Fund’s shares was 1.51% for the same period. The total return of the Bloomberg US Corporate 1-5 Year Index (B1-5CI),¹ a broad-based securities market index, was 1.81% during the same period. The Fund’s total return for the most recently completed fiscal period reflected actual cash flows, transaction costs and expenses, which were not reflected in the total return of the B1-5CI.

During the reporting period, the most significant factors affecting the Fund’s performance were: (1) security selection; (2) sector/industry selection; and (3) the effect of changing interest rates, referred to as duration.²

The following discussion will focus on the Fund’s performance, based on the market price of the Fund’s shares, relative to the B1-5CI.

MARKET OVERVIEW

Inflation brought on by pandemic imbalances quickly became the key focus of the Federal Reserve (the “Fed”), which raised its federal funds target rate at every meeting during the reporting period, settling at a range of 4.75-5% at its March 2023 meeting. The Fed stood by its 2% inflation target even as the consumer price index fell from its peak of 9% in June 2022 to 5% in April 2023 while markets continued to challenge whether the Fed would balk in its effort to reduce prices. Against a backdrop of above-trend employment gains, the unemployment rate ranged between 3.4% and 3.7% as consumer confidence remained solid. Many economic indicators pointed to slowing growth, and even recession, as did usually reliable market measures like yield curve³ inversion. It took a banking crisis in early March 2023 to accelerate concern about the potential for credit contraction that could bring on recession. Despite this, corporate earnings in the first quarter of 2023 were better than expected, though some companies noted concern about the rest of the year.

Uncertainty about the path of the federal funds target rate led the yield on the 10-year U.S. Treasury to range from a low of 2.58% in August 2022 to a high of 4.24% in October 2022, before ending the period at 3.43%. Heightened volatility in both equity and bond markets drove credit spreads in a nearly 50 basis point range, before investment-grade spreads ended near the period average at 1.26%. During the fiscal year, according to Bloomberg index data, 3-month Treasury bills, asset-backed securities and high yield⁴ posted the highest total returns, while U.S. Treasuries, residential and commercial mortgage-backed securities⁵ and the Bloomberg Aggregate Bond index all

posted negative total returns. On a duration-adjusted basis, mortgage-backed securities, commercial mortgage-backed securities and U.S. agency bonds underperformed U.S. Treasuries. Crude oil prices fell over 26%, and copper fell over 9%, helping to ease the input cost pressure.

SECURITY SELECTION

Security selection contributed to returns, led by communications, energy and capital goods, partly offset by transportation and technology. Those issuers adding to performance included Netflix, Inc., Suncor Energy, Targa Resources, Inc., and Boeing Co.

SECTOR/INDUSTRY SELECTION

Overall, sector allocation was the largest detractor from Fund performance, as the bank loan⁶ allocation had a negative total return, while the investment-grade⁷ corporate allocation had no impact. From a credit quality perspective, contribution from the Fund's overweight positions in securities rated "BBB" were offset by that of securities rated "A."

DURATION MANAGEMENT

During the reporting period, duration had a large positive impact on performance as the Fund's duration was shorter than the B1-5CI in a period of sharply rising interest rates.⁸

- 1 Please see the footnotes to the line graph under "Fund Performance and Growth of a \$10,000 Investment" below for the definition of, and more information about, the B1-5CI.*
- 2 Duration is a measure of a security's price sensitivity to changes in interest rates. Securities with longer durations are more sensitive to changes in interest rates than other securities of shorter durations.*
- 3 The yield curve is a graph showing the comparative yields of securities in a particular class according to maturity. Securities on the long end of the yield curve have longer maturities.*
- 4 High-yield, lower-rated securities generally entail greater market, credit and liquidity risks than investment-grade securities and may include higher volatility and a higher risk of default.*
- 5 The value of some mortgage-backed securities may be particularly sensitive to changes in prevailing interest rates, and although the securities are generally supported by some form of government or private insurance, there is no assurance that private guarantors or insurers will meet their obligations.*
- 6 In addition to the risks generally associated with debt instruments, such as credit, market, interest rate, liquidity and derivatives risks, bank loans are also subject to the risk that the value of the collateral securing a loan may decline, be insufficient to meet the obligations of the borrower, or be difficult to liquidate.*
- 7 Investment-grade securities are securities that are rated at least "BBB" or unrated securities of a comparable quality. Noninvestment-grade securities are securities that are not rated at least "BBB" or unrated securities of a comparable quality. Credit ratings are an indication of the risk that a security will default. They do not protect a security from credit risk.*
- 8 Bond prices are sensitive to changes in interest rates, and a rise in interest rates can cause a decline in their prices. Issuers of fixed-income securities may fail to pay interest or principal on those securities when due, which may reduce the value of the Fund's portfolio holdings, its share price and its performance.*

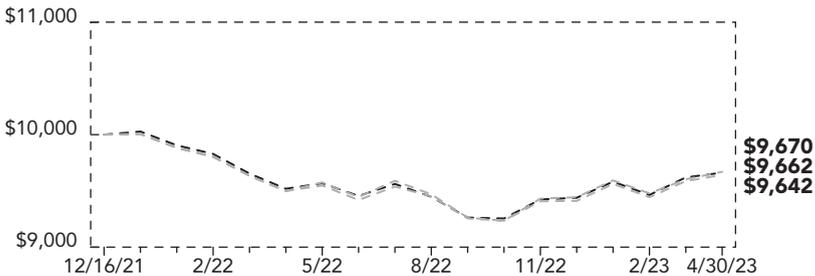

FUND PERFORMANCE AND GROWTH OF A \$10,000 INVESTMENT

The graph below illustrates the hypothetical investment of \$10,000¹ in the Federated Hermes Short Duration Corporate ETF (the “Fund”) from December 16, 2021 to April 30, 2023, compared to the Bloomberg US Corporate 1-5 Year Index (B1-5CI).² The Average Annual Total Return table below shows returns averaged over the stated periods.

GROWTH OF A \$10,000 INVESTMENT

Growth of \$10,000 as of April 30, 2023

- Federated Hermes Short Duration Corporate ETF - Market Value
- Federated Hermes Short Duration Corporate ETF - NAV
- B1-5CI

Average Annual Total Returns for the Period Ended 4/30/2023

	1 Year	Since Inception
Market Price	1.51%	-2.48%
NAV	1.51%	-2.62%
B1-5CI	1.81%	-3.30%

Performance data quoted represents past performance which is no guarantee of future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Fund performance changes over time and current performance may be lower or higher than what is stated. For current to the most recent month-end performance and after-tax returns, visit FederatedHermes.com/us or call 1-800-341-7400. Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Funds are not obligations of or guaranteed by any bank and are not federally insured.

- 1 *The Fund's performance assumes the reinvestment of all dividends and distributions. The B1-5CI has been adjusted to reflect reinvestment of dividends on securities in the index and the average.*
- 2 *The B1-5CI measures the investment-grade, U.S. dollar-denominated, fixed-rate, taxable corporate and government-related bond markets. The index only includes securities with a maturity between one and ten years. It is composed of the Bloomberg U.S. Corporate Index and a non-corporate component that includes foreign agencies, sovereigns, supranationals and local authorities. The B1-5CI is not adjusted to reflect sales charges, expenses or other fees that the Securities and Exchange Commission requires to be reflected in the Fund's performance. The index is unmanaged and, unlike the Fund, is not affected by cash flows. It is not possible to invest directly in an index.*

Portfolio of Investments Summary Table (unaudited)

At April 30, 2023, the Fund's portfolio composition¹ was as follows:

Type of Investments	Percentage of Total Net Assets
Corporate Debt Securities	98.5%
Derivative Contracts ²	0.2%
Cash Equivalents ³	0.7%
Other Assets and Liabilities—Net ⁴	0.6%
TOTAL	100%

- 1 See the Fund's Prospectus and Statement of Additional Information for a description of these security types.
- 2 Based upon net unrealized appreciation (depreciation) or value of the derivative contracts as applicable. Derivative contracts may consist of futures, forwards, options and swaps. The impact of a derivative contract on the Fund's performance may be larger than its unrealized appreciation (depreciation) or value may indicate. In many cases, the notional value or amount of a derivative contract may provide a better indication of the contract's significance to the portfolio. More complete information regarding the Fund's direct investments in derivative contracts, including unrealized appreciation (depreciation), value and notional values or amounts of such contracts, can be found in the table at the end of the Portfolio of Investments included in this Report.
- 3 Cash Equivalents include any investments in money market mutual funds and/or overnight repurchase agreements.
- 4 Assets, other than investments in securities, less liabilities. See Statement of Assets and Liabilities.

- 1 *Floating/variable note with current rate and current maturity or next reset date shown.*
- 2 *7-day net yield.*
- 3 *The cost of investments for federal tax purposes amounts to \$27,635,020.*
- 4 *Assets, other than investments in securities, less liabilities. See Statement of Assets and Liabilities.*

Note: The categories of investments are shown as a percentage of total net assets at April 30, 2023.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Level 1—quoted prices in active markets for identical securities.

Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Also includes securities valued at amortized cost.

Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used, as of April 30, 2023, in valuing the Fund's assets carried at fair value:

Valuation Inputs

	Level 1— Quoted Prices	Level 2— Other Significant Observable Inputs	Level 3— Significant Unobservable Inputs	Total
Debt Securities:				
Corporate Bonds	\$ —	\$26,204,982	\$—	\$26,204,982

Notes to Financial Statements

April 30, 2023

1. ORGANIZATION

Federated Hermes ETF Trust (the "Trust") was organized as a Delaware statutory trust on August 24, 2011 and is registered under the Investment Company Act of 1940, as amended (the "Act"), as an open-end management investment company. The Trust consists of three portfolios. The financial statements included herein are only those of Federated Hermes Short Duration Corporate ETF (the "Fund"). The Fund's investment objective is to seek current income.

Individual shares of the Fund are listed for trading on a national securities exchange during the trading day. The Fund's primary listing exchange is NYSE Arca. Shares can be bought and sold throughout the trading day like shares of other publicly traded companies, and when you buy or sell the Fund's shares in the secondary market, you will pay or receive the market price. However, there can be no guarantee that an active trading market will develop or be maintained, or that the Fund shares listing will continue or remain unchanged.

Shares of the Fund may only be acquired in transactions on the NYSE Arca or by or through Authorized Participants that have executed an agreement with the Fund's Distributor and redeemed directly with the Fund by or through an Authorized Participant in large blocks called Creation Units or multiples thereof. Authorized Participants are registered clearing agents that enter into an agreement with the Fund's distributor to transact in Creation Units. Purchases and redemptions of Creation Units will take place in-kind and/or for cash at the discretion of the Fund. The determination of whether purchases and redemptions of Creation Units will be for cash or in-kind depends primarily on the regulatory requirements and settlement mechanisms relevant to the Fund's portfolio holdings and the Fund is not limited to engaging in in-kind transactions to any particular market circumstances.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. These policies are in conformity with U.S. generally accepted accounting principles (GAAP).

Investment Valuation

In calculating its net asset value (NAV), the Fund generally values investments as follows:

- Fixed-income securities are fair valued using price evaluations provided by a pricing service approved by Federated Investment Management Company (the "Adviser").
- Shares of mutual funds or non-exchange-traded investment companies are valued based upon their reported NAVs, or NAV per share practical expedient, as applicable.
- Derivative contracts listed on exchanges are valued at their reported settlement or closing price, except that options are valued at the mean of closing bid and ask quotations.
- Over-the-counter (OTC) derivative contracts are fair valued using price evaluations provided by a pricing service approved by the Adviser.
- For securities that are fair valued in accordance with procedures established by and under the general supervision of the Adviser, certain factors may be considered, such

as: the last traded or purchase price of the security, information obtained by contacting the issuer or dealers, analysis of the issuer's financial statements or other available documents, fundamental analytical data, the nature and duration of restrictions on disposition, the movement of the market in which the security is normally traded, public trading in similar securities or derivative contracts of the issuer or comparable issuers, movement of a relevant index, or other factors including but not limited to industry changes and relevant government actions.

If any price, quotation, price evaluation or other pricing source is not readily available when the NAV is calculated, if the Fund cannot obtain price evaluations from a pricing service or from more than one dealer for an investment within a reasonable period of time as set forth in the Adviser's valuation policies and procedures for the Fund, or if information furnished by a pricing service, in the opinion of the Adviser's valuation committee ("Valuation Committee"), is deemed not representative of the fair value of such security, the Fund uses the fair value of the investment determined in accordance with the procedures described below. There can be no assurance that the Fund could obtain the fair value assigned to an investment if it sold the investment at approximately the time at which the Fund determines its NAV per share, and the actual value obtained could be materially different. The trading prices of the Fund's shares listed on its exchange may differ from the Fund's NAV and will normally be affected by market forces, such as supply and demand, economic conditions, the market value of the Fund's disclosed portfolio holdings and other factors. As a result, trading prices may be lower, higher or the same as the Fund's NAV; and investors may pay more than NAV when buying shares and receive less than NAV when selling shares through the exchange.

Fair Valuation and Significant Events Procedures

Pursuant to Rule 2a-5 under the Act, the Fund's Board of Trustees (the "Trustees") has designated the Adviser as the Fund's valuation designee to perform any fair value determinations for securities and other assets held by the Fund. The Adviser is subject to the Trustees' oversight and certain reporting and other requirements intended to provide the Trustees the information needed to oversee the Adviser's fair value determinations.

The Adviser, acting through its Valuation Committee, is responsible for determining the fair value of investments for which market quotations are not readily available. The Valuation Committee is comprised of officers of the Adviser and certain of the Adviser's affiliated companies and determines fair value and oversees the calculation of the NAV. The Valuation Committee is also authorized to use pricing services to provide fair value evaluations of the current value of certain investments for purposes of calculating the NAV. The Valuation Committee employs various methods for reviewing third-party pricing-service evaluations including periodic reviews of third-party pricing services' policies, procedures and valuation methods (including key inputs, methods, models and assumptions), transactional back-testing, comparisons of evaluations of different pricing services, and review of price challenges by the Adviser based on recent market activity. In the event that market quotations and price evaluations are not available for an investment, the Valuation Committee determines the fair value of the investment in accordance with procedures adopted by the Adviser. The Trustees periodically review the fair valuations made by the Valuation Committee. The Trustees have also approved the Adviser's fair valuation and significant events procedures as part of the Fund's compliance program and will review any changes made to the procedures.

Factors considered by pricing services in evaluating an investment include the yields or prices of investments of comparable quality, coupon, maturity, call rights and other potential prepayments, terms and type, reported transactions, indications as to values from dealers and general market conditions. Some pricing services provide a single price evaluation reflecting the bid-side of the market for an investment (a “bid” evaluation). Other pricing services offer both bid evaluations and price evaluations indicative of a price between the prices bid and ask for the investment (a “mid” evaluation). The Fund normally uses bid evaluations for any U.S. Treasury and Agency securities, mortgage-backed securities and municipal securities. The Fund normally uses mid evaluations for any other types of fixed-income securities and any OTC derivative contracts. In the event that market quotations and price evaluations are not available for an investment, the fair value of the investment is determined in accordance with procedures adopted by the Adviser.

The Adviser has also adopted procedures requiring an investment to be priced at its fair value whenever the Valuation Committee determines that a significant event affecting the value of the investment has occurred between the time as of which the price of the investment would otherwise be determined and the time as of which the NAV is computed. An event is considered significant if there is both an affirmative expectation that the investment’s value will change in response to the event and a reasonable basis for quantifying the resulting change in value. Examples of significant events that may occur after the close of the principal market on which a security is traded, or after the time of a price evaluation provided by a pricing service or a dealer, include:

- With respect to securities traded principally in foreign markets, significant trends in U.S. equity markets or in the trading of foreign securities index futures contracts;
- Political or other developments affecting the economy or markets in which an issuer conducts its operations or its securities are traded;
- Announcements concerning matters such as acquisitions, recapitalizations, litigation developments, or a natural disaster affecting the issuer’s operations or regulatory changes or market developments affecting the issuer’s industry.

The Adviser has adopted procedures whereby the Valuation Committee uses a pricing service to provide factors to update the fair value of equity securities traded principally in foreign markets from the time of the close of their respective foreign stock exchanges to the pricing time of the Fund. For other significant events, the Fund may seek to obtain more current quotations or price evaluations from alternative pricing sources. If a reliable alternative pricing source is not available, the Valuation Committee will determine the fair value of the investment in accordance with the fair valuation procedures approved by the Adviser. The Trustees periodically review fair valuations made in response to significant events.

Repurchase Agreements

The Fund may invest in repurchase agreements for short-term liquidity purposes. It is the policy of the Fund to require the other party to a repurchase agreement to transfer to the Fund’s custodian or sub-custodian eligible securities or cash with a market value (after transaction costs) at least equal to the repurchase price to be paid under the repurchase agreement. The eligible securities are transferred to accounts with the custodian or sub-custodian in which the Fund holds a “securities entitlement” and exercises “control” as those terms are defined in the Uniform Commercial Code. The

Fund has established procedures for monitoring the market value of the transferred securities and requiring the transfer of additional eligible securities if necessary to equal at least the repurchase price. These procedures also allow the other party to require securities to be transferred from the account to the extent that their market value exceeds the repurchase price or in exchange for other eligible securities of equivalent market value.

The insolvency of the other party or other failure to repurchase the securities may delay the disposition of the underlying securities or cause the Fund to receive less than the full repurchase price. Under the terms of the repurchase agreement, any amounts received by the Fund in excess of the repurchase price and related transaction costs must be remitted to the other party.

The Fund may enter into repurchase agreements in which eligible securities are transferred into joint trading accounts maintained by the custodian or sub-custodian for investment companies and other clients advised by the Fund's Adviser and its affiliates. The Fund will participate on a pro rata basis with the other investment companies and clients in its share of the securities transferred under such repurchase agreements and in its share of proceeds from any repurchase or other disposition of such securities.

Investment Income, Gains and Losses, Expenses and Distributions

Investment transactions are accounted for on a trade-date basis. Realized gains and losses from investment transactions are recorded on an identified-cost basis. Interest income and expenses are accrued daily. Dividend income and distributions to shareholders are recorded on the ex-dividend date. Foreign dividends are recorded on the ex-dividend date or when the Fund is informed of the ex-dividend date.

Distributions of net investment income, if any, are declared and paid monthly. Non-cash dividends included in dividend income, if any, are recorded at fair value. Amortization/accretion of premium and discount is included in investment income. The detail of the total fund expense waiver and reimbursement of \$24,196 is disclosed in Note 5.

Federal Taxes

It is the Fund's policy to comply with the Subchapter M provision of the Internal Revenue Code of 1986 (the "Code") and to distribute to shareholders each year substantially all of its income. Accordingly, no provision for federal income tax is necessary. As of and during the year ended April 30, 2023, the Fund did not have a liability for any uncertain tax positions. The Fund recognizes interest and penalties, if any, related to tax liabilities as income tax expense in the Statement of Operations. As of April 30, 2023, tax years 2022 and 2023 remain subject to examination by the Fund's major tax jurisdictions, which include the United States of America and the State of Delaware.

When-Issued and Delayed-Delivery Transactions

The Fund may engage in when-issued or delayed-delivery transactions. The Fund records when-issued securities on the trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed-delivery basis are marked to market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

Futures Contracts

The Fund purchases and sells financial futures contracts to manage duration and yield curve risks. Upon entering into a financial futures contract with a broker, the Fund is required to deposit with a broker, either U.S. government securities or a specified amount of cash, which is shown as due from broker in the Statement of Assets and Liabilities. Futures contracts are valued daily and unrealized gains or losses are recorded in a "variation margin" account. The Fund receives from or pays to the broker a specified amount of cash based upon changes in the variation margin account. When a contract is closed, the Fund recognizes a realized gain or loss. Futures contracts have market risks, including the risk that the change in the value of the contract may not correlate with the changes in the value of the underlying securities. There is minimal counterparty risk to the Fund since futures contracts are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded futures contracts, guarantees the futures contracts against default.

Futures contracts outstanding at period end are listed after the Fund's Portfolio of Investments.

The average notional value of long futures contracts held by the Fund throughout the period was \$1,351,566. This is based on amounts held as of each month-end throughout the fiscal period.

Securities Lending

The Fund participates in a securities lending program providing for the lending of corporate bonds and government securities to qualified brokers. The term of the loans within the program is one year or less. The Fund normally receives cash collateral for securities loaned that is invested in affiliated money market funds, other money market instruments and/or repurchase agreements. Investments in money market funds may include funds with a “floating” NAV that can impose redemption fees and liquidity gates, impose certain operational impediments to investing cash collateral, and, if the investee fund’s NAV decreases, result in the Fund recognizing losses and being required to cover the decrease in the value of the cash collateral. Collateral is maintained at a minimum level of 100% of the market value of investments loaned, plus interest, if applicable. In accordance with the Fund’s securities lending agreement, the market value of securities on loan is determined each day at the close of business and any additional collateral required to cover the value of securities on loan is delivered to the Fund on the next business day. Earnings on collateral are allocated between the borrower of the security, the securities lending agent, as a fee for its services under the program and the Fund, according to agreed-upon rates. The Fund will not have the right to vote on securities while they are on loan. However, the Fund will attempt to terminate a loan in an effort to reacquire the securities in time to vote on matters that are deemed to be material by the Adviser. There can be no assurance that the Fund will have sufficient notice of such matters to be able to terminate the loan in time to vote thereon.

As of April 30, 2023, the Fund had no outstanding securities on loan.

Restricted Securities

The Fund may purchase securities which are considered restricted. Restricted securities are securities that either: (a) cannot be offered for public sale without first being registered, or being able to take advantage of an exemption from registration, under the Securities Act of 1933; or (b) are subject to contractual restrictions on public sales. In some cases, when a security cannot be offered for public sale without first being registered, the issuer of the restricted security has agreed to register such securities for resale, at the issuer’s expense, either upon demand by the Fund or in connection with another registered offering of the securities. Many such restricted securities may be resold in the secondary market in transactions exempt from registration. Restricted securities may be determined to be liquid under criteria established by the Trustees. The Fund will not incur any registration costs upon such resales. The Fund’s restricted securities, like other securities, are priced in accordance with procedures established by and under the general supervision of the Adviser.

Other

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets, liabilities, expenses and revenues reported in the financial statements. Actual results could differ materially from those estimated. The Fund applies investment company accounting and reporting guidance.

3. SHARES OF BENEFICIAL INTEREST

The following tables summarize share activity with respect to purchases and redemptions of Creation Units:

	Year Ended 4/30/2023	Period Ended 4/30/2022 ¹
Shares sold	90,000	1,040,004
Shares issued to shareholders in payment of distributions declared	—	—
Shares redeemed	—	—
NET CHANGE RESULTING FROM FUND SHARE TRANSACTIONS	90,000	1,040,004

1 Reflects operations for the period from December 16, 2021 (commencement of operations) to April 30, 2022.

4. FEDERAL TAX INFORMATION

The tax character of distributions as reported on the Statement of Changes in Net Assets for the year ended April 30, 2023 and period ended April 30, 2022, was as follows:

	2023	2022
Ordinary income	\$486,942	\$141,544

As of April 30, 2023, the components of distributable earnings on a tax-basis were as follows:

Undistributed ordinary income	\$	54
Net unrealized depreciation	\$(1,237,175)	
Capital loss carryforwards	\$	(260,538)
TOTAL	\$(1,497,659)	

At April 30, 2023, the cost of investments for federal tax purposes was \$27,635,020. The net unrealized depreciation of investments for federal tax purposes was \$1,237,175. This consists of unrealized appreciation from investments for those securities having an excess of value over cost of \$85,367 and unrealized depreciation from investments for those securities having an excess of cost over value of \$1,322,542. The amounts presented are inclusive of derivative contracts.

As of April 30, 2023, the Fund had a capital loss carryforward of \$260,538 which will reduce the Fund's taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Code, thereby reducing the amount of distributions to shareholders which would otherwise be necessary to relieve the Fund of any liability for federal income tax. Pursuant to the Code, these net capital losses retain their character as either short-term or long-term and do not expire.

The following schedule summarizes the Fund's capital loss carryforwards:

Short-Term	Long-Term	Total
\$228,107	\$32,431	\$260,538

5. INVESTMENT ADVISER FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Investment Adviser Fee

The advisory agreement between the Fund and the Adviser provides for an annual fee equal to 0.39% of the Fund's average daily net assets. Under the advisory agreement, the Adviser has contractually agreed to pay all operating expenses of the Fund under a unitary fee structure, except (i) interest and taxes (including, but not limited to, income, excise, transaction, transfer and withholding taxes) and registration fees and expenses; (ii) expenses of the Fund incurred with respect to the acquisition and disposition of portfolio securities and the execution of portfolio transactions, including brokerage commissions and short sale dividend or interest expense; (iii) expenses incurred in connection with any distribution plan adopted by the Trust in compliance with Rule 12b-1 under the 1940 Act, including distribution fees; (iv) Acquired Fund Fees and Expenses; (v) litigation expenses; (vi) proxy-related expenses; (vii) tax reclaim recovery expenses; and (viii) any expenses determined to be extraordinary expenses. Subject to the terms described in the Expense Limitation note, the Adviser may voluntarily choose to waive any portion of its fee and/or reimburse certain operating expenses of the Fund for competitive reasons such as to maintain the Fund's expense ratio, or as and when appropriate, to maintain positive or zero net yields. For the year ended April 30, 2023, the Adviser voluntarily waived \$23,651 of its fee and voluntarily reimbursed \$545 of other operating expenses.

Administrative Fee

Federated Administrative Services (FAS), under the Administrative Services Agreement, provides the Fund with administrative personnel and services. The Adviser, not the Fund, pays FAS.

Distribution Services Fee

The Fund has adopted a Distribution Plan (the "Plan") pursuant to Rule 12b-1 under the Act. Under the terms of the Plan, the Fund will compensate Federated Securities Corp. (FSC), the principal distributor, from the daily net assets of the to finance activities intended to result in the sale of these shares. The Plan provides that the Fund may incur distribution expenses of up to 0.25% of average daily net assets, annually, to compensate FSC. Subject to the terms described in the Expense Limitation note, FSC may voluntarily choose to waive any portion of its fee.

For the year ended April 30, 2023, the Fund did not incur a distribution services fee; however, it may begin to incur this fee upon approval of the Trustees.

Expense Limitation

The Adviser and certain of its affiliates (which may include FAS or FSC) on their own initiative have agreed to waive certain amounts of their respective fees and/or reimburse expenses. Total annual fund operating expenses (as shown in the financial highlights, excluding interest expense, taxes, litigation expenses, extraordinary expenses and proxy-related expenses paid by the Fund, if any) paid by the Fund (after the voluntary waivers and/or reimbursements) will not exceed 0.29% (the "Fee Limit") up to but not including the later of (the "Termination Date"): (a) July 1, 2024; or (b) the date of the Fund's next effective Prospectus. These arrangements may only be terminated or the Fee Limit increased prior to the Termination Date with the agreement of the Fund's Trustees.

Directors'/Trustees' and Miscellaneous Fees

Certain Officers and Trustees of the Fund are Officers and Directors or Trustees of certain of the above companies.

Affiliated Shares of Beneficial Interest

As of April 30, 2023, a majority of the shares of beneficial interest outstanding are owned by an affiliate of the Adviser.

6. INVESTMENT TRANSACTIONS

Purchases and sales of investments, excluding long-term U.S. government securities and short-term obligations, for the year ended April 30, 2023, were as follows:

Purchases	\$9,320,300
Sales	\$7,154,425

Purchases include \$1,942,445 in connection with in-kind purchases of the Fund's Units.

7. INTERFUND LENDING

Pursuant to an Exemptive Order issued by the Securities and Exchange Commission, the Fund, along with other funds advised by subsidiaries of Federated Hermes, Inc., may participate in an interfund lending program. This program provides an alternative credit facility allowing the Fund to borrow from other participating affiliated funds. As of April 30, 2023, there were no outstanding loans. During the year ended April 30, 2023, the program was not utilized.

8. INDEMNIFICATIONS

Under the Fund's organizational documents, its Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund (other than liabilities arising out of their willful misfeasance, bad faith, gross negligence or reckless disregard of their duties to the Fund). In addition, in the normal course of business, the Fund provides certain indemnifications under arrangements with third parties. Typically, obligations to indemnify a third party arise in the context of an arrangement entered into by the Fund under which the Fund agrees to indemnify such third party for certain liabilities arising out of actions taken pursuant to the arrangement, provided the third party's actions are not deemed to have breached an agreed-upon standard of care (such as willful misfeasance, bad faith, gross negligence or reckless disregard of their duties under the contract). The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet arisen. The Fund does not anticipate any material claims or losses pursuant to these arrangements at this time, and accordingly expects the risk of loss to be remote.

9. OTHER MATTERS

An outbreak of respiratory disease caused by a novel coronavirus was first detected in China in late 2019 and subsequently spread globally. As of the date of the issuance of these financial statements, this coronavirus has resulted in, and may continue to result in, closed borders, enhanced health screenings, disruptions to healthcare service preparation and delivery, quarantines, cancellations, and disruptions to supply chains, workflow operations and consumer activity, as well as general concern and uncertainty. The impact of this coronavirus has resulted in substantial economic volatility. Health

crises caused by outbreaks, such as the coronavirus outbreak, may exacerbate other pre-existing political, social and economic risks. The impact of this outbreak, and other epidemics and pandemics that may arise in the future, could continue to negatively affect the worldwide economy, as well as the economies of individual countries, individual companies (including certain Fund service providers and issuers of the Fund's investments) and the markets in general in significant and unforeseen ways. In addition, governments, their regulatory agencies, or self-regulatory organizations may take actions in response to the pandemic, including significant fiscal and monetary policy changes, that may affect the instruments in which the Fund invests or the issuers of such investments. Any such impact could adversely affect the Fund's performance.

Report of Independent Registered Public Accounting Firm

TO THE SHAREHOLDERS AND BOARD OF TRUSTEES OF FEDERATED HERMES SHORT DURATION CORPORATE ETF:

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Federated Hermes Short Duration Corporate ETF (the “Fund”) (one of the portfolios constituting Federated Hermes ETF Trust (the “Trust’’)), including the portfolio of investments, as of April 30, 2023, and the related statement of operations for the year then ended, and the statement of changes in net assets and financial highlights for the year then ended and the period from December 16, 2021 (commencement of operations) to April 30, 2022, and the related notes (collectively referred to as the “financial statements’’). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the portfolios constituting Federated Hermes ETF Trust) at April 30, 2023, the results of its operations for the year then ended, and the changes in its net assets and financial highlights for the year then ended and the period from December 16, 2021 (commencement of operations) to April 30, 2022, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2023, by correspondence with the custodian, brokers, and others; when replies were not received from brokers or others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more Federated Hermes investment companies since 1979.

Boston, Massachusetts
June 22, 2023

Shareholder Expense Example (unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, which may include creation and redemption fees and brokerage commissions; and (2) ongoing costs, including management fees and to the extent applicable, distribution (12b-1) fees and/or other service fees and other Fund expenses. This Example is intended to help you to understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other funds. It is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from November 1, 2022 to April 30, 2023.

ACTUAL EXPENSES

The first section of the table below provides information about actual account values and actual expenses. You may use the information in this section, together with the amount you invested, to *estimate* the expenses that you incurred over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first section under the heading entitled “Expenses Paid During Period” to estimate the expenses attributable to your investment during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second section of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an *assumed* rate of return of 5% per year before expenses, which is not the Fund’s actual return. Thus, you should *not* use the hypothetical account values and expenses to estimate the actual ending account balance or your expenses for the period. Rather, these figures are required to be provided to enable you to compare the ongoing costs of investing in the Fund with other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as creation and redemption fees and brokerage commissions. Therefore, the second section of the table is useful in comparing ongoing costs only, and will not help you determine the relative *total* costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

	Beginning Account Value 11/1/2022	Ending Account Value 4/30/2023	Expenses Paid During Period¹
Actual	\$1,000	\$1,044.10	\$1.47
Hypothetical (assuming a 5% return before expenses)	\$1,000	\$1,023.36	\$1.45

- 1 Expenses are equal to the Fund's annualized net expense ratio of 0.29%, multiplied by the average account value over the period, multiplied by 181/365 (to reflect the one-half-year period).

Board of Trustees and Trust Officers

The Board of Trustees is responsible for managing the Trust's business affairs and for exercising all the Trust's powers except those reserved for the shareholders. The following tables give information about each Trustee and the senior officers of the Fund. Where required, the tables separately list Trustees who are "interested persons" of the Fund (i.e., "Interested" Trustees) and those who are not (i.e., "Independent" Trustees). Unless otherwise noted, the address of each person listed is 1001 Liberty Avenue, Pittsburgh, PA 15222-3779. The address of all Independent Trustees listed is 4000 Ericsson Drive, Warrendale, PA 15086-7561; Attention: Federated Hermes ETF Trust Board. As of December 31, 2022, the Trust comprised two portfolio(s), and the Federated Hermes Fund Family consisted of 33 investment companies (comprising 102 portfolios). Unless otherwise noted, each Officer is elected annually. Unless otherwise noted, each Trustee oversees all portfolios in the Federated Hermes Fund Family and serves for an indefinite term. The Fund's Statement of Additional Information includes additional information about Trust Trustees and is available, without charge and upon request, by calling 1-800-341-7400, Option #4.

Mr. Clark received his B.A. in Economics from the University of Pittsburgh.

Evaluation and Approval of Advisory Contract – May 2021

FEDERATED HERMES SHORT DURATION CORPORATE ETF (THE “FUND”)

At its meetings in May 2021 (the “May Meetings”), the Fund’s Board of Trustees (the “Board”), including those Trustees who are not “interested persons” of the Fund, as defined in the Investment Company Act of 1940 (the “Independent Trustees”), reviewed and unanimously approved for an initial two-year term a proposed investment advisory contract (the “Contract”) between the Fund and Federated Investment Management Company (the “Adviser”). The Board’s determination to approve the Contract reflects the exercise of its business judgment regarding whether to authorize the creation and offering of this new investment vehicle, as proposed by Federated Hermes, Inc. (together with its wholly owned subsidiaries, “Federated Hermes”), and is based on information requested by the Board and provided by Federated Hermes, as well as Federated Hermes’ recommendation to go forward with development of the Fund. The information, factors and conclusions that formed the basis for the Board’s approval are summarized below.

Information Received and Review Process

At the request of the Independent Trustees, the Fund’s Chief Compliance Officer (the “CCO”) furnished to the Board in advance of its May Meetings an independent written evaluation presenting on the topics discussed below. The Board considered the CCO’s independent written evaluation (the “New Fund CCO Fee Evaluation Report”), along with other information, in evaluating the reasonableness of the Fund’s proposed management fee and in determining to approve the Contract. The CCO, in preparing the New Fund CCO Fee Evaluation Report, has the authority to retain consultants, experts or staff as reasonably necessary to assist in the performance of his duties, reports directly to the Board, and can be terminated only with the approval of a majority of the Independent Trustees.

In addition to the extensive materials that comprise and accompany the New Fund CCO Fee Evaluation Report, the Board considered the materials and presentations provided by Federated Hermes and the CCO’s independent written evaluation in connection with the Board’s annual approval of the continuation of the advisory and subadvisory contracts for the other funds advised by the Adviser and its affiliates (each, a “Federated Hermes Fund”) at its May 2021 Meetings. The Board also considered such additional matters as the Independent Trustees deemed reasonably necessary to evaluate the proposed Contract, which included detailed information about the Federated Hermes Funds and Federated Hermes furnished to the Board at its meetings throughout the year and in between regularly scheduled meetings on particular matters as the need arose.

The Board’s consideration of the Contract included review of materials and information covering the following matters, among others: the Adviser’s investment philosophy, revenue, profitability, personnel and processes; investment and operating strategies; the Fund’s proposed investment objective; the Fund’s anticipated expenses, including the proposed management fee and the overall estimated expense structure of the Fund (both in absolute terms and relative to a group of its peer funds), with due regard for contractual or voluntary expense limitations (if any); the use and allocation of brokerage commissions to be derived from trading the Fund’s portfolio securities (if any); and the nature, quality and extent of the advisory and other services to be provided to the Fund by the Adviser and its affiliates. The Board also considered the likely preferences and expectations of anticipated Fund shareholders; the entrepreneurial and other risks assumed by the Adviser in sponsoring and managing the Fund; the continuing state of competition in the exchange-traded fund (“ETF”) and mutual fund industry and market practices; the range of comparable fees for similar funds in the exchange-traded fund and mutual fund industry; the Fund’s proposed relationship to the other Federated Hermes Funds, which include a comprehensive array of funds with different investment objectives, policies and strategies, and the benefits to shareholders of being part of the family of Federated Hermes Funds, compliance and audit reports concerning the Federated Hermes Funds and Federated Hermes’ affiliates that service them (including communications from regulatory agencies), as well as Federated Hermes’ responses to any issues raised therein; and relevant developments in the exchange-traded fund and mutual fund industry and how the Federated Hermes Funds and/or Federated Hermes may be responding to them. The Board noted that its evaluation process is evolutionary and that the criteria considered and the emphasis placed on relevant criteria may change in recognition of changing circumstances in the exchange-traded fund and mutual fund marketplace.

The Board also considered judicial decisions concerning allegedly excessive investment advisory fees in determining to approve the Contract. Using these judicial decisions as a guide, the Board observed that the following factors may be relevant to an adviser’s fiduciary duty with respect to its receipt of compensation from a fund: (1) the nature and quality of the services provided by an adviser to a fund and its shareholders (including the performance of the fund, its benchmark, and comparable funds); (2) an adviser’s cost of providing the services (including the profitability to an adviser of providing advisory services to a fund); (3) the extent to which an adviser may realize “economies of scale” as a fund grows larger and, if such economies of scale exist, whether they have been appropriately shared with a fund and its shareholders or the family of funds; (4) any “fall-out” benefits that accrue to an adviser because of its relationship with a fund (including research services received from brokers that execute fund trades and any fees paid to affiliates of an adviser for services rendered to a fund); (5) comparative fee and expense structures (including a

comparison of fees paid to an adviser with those paid by similar funds both internally and externally as well as management fees charged to institutional and other advisory clients of the adviser for what might be viewed as like services); and (6) the extent of care, conscientiousness and independence with which the fund's board members perform their duties and their expertise (including whether they are fully informed about all facts the board deems relevant to its consideration of an adviser's services and fees). The Board noted that the Securities and Exchange Commission ("SEC") disclosure requirements regarding the basis for a fund board's approval of the fund's investment advisory contract generally align with the factors listed above. The Board was guided by these factors in its review of the proposed Contract to the extent it considered them to be appropriate and relevant, as discussed further below. The Board recognized that certain of the factors listed above (relating to such matters as anticipated Fund performance and any indirect benefits that may accrue to Federated Hermes as a result of the Adviser's proposed relationship with the Fund) are essentially impossible to apply before the Fund has experienced any meaningful operating history. The Board considered and weighed these factors in light of its substantial accumulated experience in governing the Federated Hermes Funds and working with Federated Hermes on matters relating to the Federated Hermes Funds.

In determining to approve the Contract, the members of the Board reviewed and evaluated information and factors they believed to be relevant and appropriate through the exercise of their reasonable business judgment. While individual members of the Board may have weighed certain factors differently, the Board's determination to approve the Contract was based on a comprehensive consideration of all information provided to the Board. The Independent Trustees were assisted throughout the evaluation process by independent legal counsel. In connection with their deliberations at the May Meetings, the Independent Trustees met separately in executive session with their independent legal counsel and without management present to review the relevant materials and consider their responsibilities under applicable laws. In addition, senior management representatives of Federated Hermes also met with the Independent Trustees and their independent legal counsel to discuss the materials and presentations furnished to the Board at the May Meetings.

Nature, Extent and Quality of Services

The Board considered the nature, extent and quality of the services to be provided to the Fund by the Adviser and the resources of the Adviser and its affiliates to be dedicated to the Fund. In this regard, the Board evaluated, among other things, the proposed terms of the Contract and the range of services to be provided to the Fund by the Adviser and its affiliates. The Board considered the Adviser's personnel, investment philosophy and process, investment research capabilities and resources, trade execution capabilities, experience and performance track record. The Board reviewed the qualifications, backgrounds and responsibilities of the portfolio management

team that will be primarily responsible for the day-to-day management of the Fund and the Adviser's ability and experience in attracting and retaining qualified personnel to service the proposed Fund. In particular, the Board considered the abilities and experience of the portfolio managers in analyzing factors such as special considerations relevant to investing primarily in a diversified portfolio of investment-grade fixed-income securities consisting primarily of corporate debt securities. The Board also evaluated the Fund's anticipated ability to deliver competitive performance when compared to its Peer Group (as defined below) as a useful indicator of the Adviser's anticipated ability to execute the Fund's investment program.

In addition, the Board considered the financial resources and overall reputation of Federated Hermes and its willingness to consider and make investments in personnel, infrastructure, technology, cybersecurity, business continuity planning and operational enhancements that are designed to benefit the Federated Hermes Funds. The Board also considered its past experience with the Adviser with respect to the services it provides to other Federated Hermes Funds. The Board considered that, although the Fund would be among the first ETFs managed by the Adviser, the Adviser had extensive experience advising actively managed mutual funds, including mutual funds with similar strategies to those of the Fund. The Board noted the significant acquisition of Hermes Fund Managers Limited by Federated Hermes in 2018, which has deepened the organization's investment management expertise and capabilities and expanded the investment process for all of the Federated Hermes Funds to have access to analytical resources related to environmental, social and governance ("ESG") factors and issuer engagement on ESG matters.

The Board considered the special attributes of the Fund as an ETF relative to a traditional mutual fund and the benefits that are expected to be realized from an investment in the Fund, rather than a traditional mutual fund. The Board also considered the resources devoted by Federated Hermes in developing and maintaining an infrastructure necessary to support the on-going operations of the Fund.

The Board considered the quality of the Adviser's communications with the Board and responsiveness to Board inquiries and requests made from time to time with respect to the other Federated Hermes Funds. In this regard, the Board took into account the Adviser's communications with the Board in light of the market volatility amidst the pandemic. The Board also considered that Federated Hermes is responsible for providing the Federated Hermes Funds' officers.

The Board also considered information previously provided by the Adviser regarding its regulatory and compliance environment. The Board considered the Adviser's compliance program, compliance history, and reports from the CCO about the Adviser's compliance with applicable laws and regulations, including responses to regulatory developments and any compliance or other issues raised by regulatory agencies. The Board also noted Federated Hermes'

support of the Federated Hermes Funds' compliance control structure and, in particular, the compliance-related resources that would be devoted by the Adviser and its affiliates in support of the Fund's obligations pursuant to Rule 38a-1 under the Investment Company Act of 1940, as amended, including the Adviser's commitment to respond to rulemaking and other regulatory initiatives of the SEC.

The Board considered Federated Hermes' day-to-day oversight of the Federated Hermes Funds' compliance with their investment objectives and policies as well as with applicable laws and regulations, noting that regulatory and other developments had over time led to an increase in the scope of Federated Hermes' oversight in this regard, including in connection with the designation of the Federated Hermes Funds' investment advisers as the administrators of the Federated Hermes Funds' liquidity risk management program.

The Board also considered discussions with Federated Hermes regarding the implementation of its business continuity plans and recognized steps taken by Federated Hermes to continue to provide the same nature, extent and quality of services to the Federated Hermes Funds during the pandemic. In addition, the Board noted Federated Hermes' commitment to maintaining high quality systems and expending substantial resources to prepare for and respond to ongoing changes due to the market, regulatory and control environments in which the Fund and its service providers would operate, including changes associated with the pandemic.

Based on these considerations, the Board concluded that it was satisfied with the nature, extent and quality of the investment management and related services to be provided to the Fund by the Adviser and that the approval of the Contract was warranted.

Fund Investment Performance

The Board noted that the Fund is newly formed and has no prior performance history. The Board considered the investment performance of the Adviser and its significant history of managing short duration fixed-income portfolios. The Board also received additional information about the broad range of the portfolio management team's investment experience and their investment philosophy and process, including with respect to the Fund's proposed investments primarily in a diversified portfolio of investment-grade fixed-income securities consisting primarily of corporate debt securities.

Based on these considerations, the Board concluded that it was satisfied that the Adviser has the capability of providing satisfactory investment performance for the Fund.

Fund Expenses

The Board considered the proposed management fee and overall proposed expense structure of the Fund and the comparative fee and expense information that had been provided in connection with the May Meetings. In this regard, the Board was presented with, and considered, information regarding the proposed contractual management fee rates, proposed net management fee rates, and anticipated total expense ratios relative to (i) traditional mutual funds with an institutional share class within the category of peer funds selected by Morningstar, Inc. , an independent fund ranking organization (the “Peer Group”) and (ii) actively managed ETFs within the Peer Group. The Board noted the CCO’s view that comparisons to fund peer groups may be helpful, though not conclusive, in evaluating the reasonableness of the Fund’s fees. The Board considered, in evaluating such comparisons, that in some cases there may be differences in the funds’ objectives or investment management techniques, or the costs to implement the funds, even within the same Peer Group. The Board noted information about structural, operational and other differences between ETFs and traditional mutual funds, including differences in the marketplace in which each type of product must compete.

While mindful that courts have cautioned against giving too much weight to comparative information concerning fees charged by other advisers for managing funds with comparable investment programs, the Board noted that it found the use of such comparisons to be relevant to its deliberations. The Board focused on comparisons with other similar exchange-traded funds and mutual funds more heavily than exchange-traded funds and mutual funds products or services because such comparisons are believed to be more relevant. The Board considered that other exchange-traded funds and mutual funds are the products most like the Fund, in that they are readily available to Fund shareholders as alternative investment vehicles, and they are the type of investment vehicle, in fact, anticipated to be chosen and maintained by the Fund’s anticipated shareholders. The Board noted that the range of such other exchange-traded funds’ and mutual funds’ fees and expenses, therefore, appears to be a relevant indicator of what consumers have found to be reasonable in the marketplace in which the Fund will compete. The Board also considered competition in the general ETF marketplace and the impact of market pressures on the price levels for actively managed ETFs such as the Fund.

The Board reviewed the proposed contractual management fee rate, proposed net management fee rate and anticipated total expense ratio of the Fund and noted the position of the Fund’s proposed fee rates relative to its Peer Group. In this regard, the Board noted that the proposed contractual management fee rate of the Fund was above the median of the Peer Group. The Board also noted that most of the funds in the Fund’s Peer Group do not charge a unitary fee from which operational expenses are paid.

Consistent with general ETF practice, the Board noted the Fund’s “unitary” fee structure, under which the Adviser would, in addition to providing investment management services, arrange for transfer agency, custody, fund administration and accounting, and other non-distribution related services necessary for the Fund to operate. The Board considered that, other than the management fee, the Adviser would pay all operating expenses of the Fund, except for: (i) interest and taxes (including, but not limited to, income, excise, transaction, transfer and withholding taxes); (ii) expenses of the Fund incurred with respect to the acquisition and disposition of portfolio securities and the execution of portfolio transactions, including brokerage commissions and short sale dividend or interest expense; (iii) expenses incurred in connection with any distribution plan adopted by the Trust in compliance with Rule 12b-1 under the 1940 Act, including distribution fees; (iv) acquired fund fees and expenses; (v) litigation expenses; (vi) proxy-related expenses; (vii) tax reclaim recovery expenses; and (viii) any expenses determined to be extraordinary expenses.

While Federated Hermes does not currently offer a Short-Term Corporate investment strategy either in a separate account or another Federated Hermes Fund, the Board previously received and considered information about the fees charged by Federated Hermes for advisory services provided by the Investment Grade Corporate investment team to other types of clients, including non-registered non-exchange-traded or mutual fund clients (such as institutional separate accounts) and third-party unaffiliated mutual funds for which the Adviser or its affiliates serve as sub-adviser. The Board noted the CCO’s conclusion that registered fund clients are inherently different products due to the following differences, among others: (i) different types of targeted investors; (ii) different applicable laws and regulations; (iii) different legal structures; (iv) different average account sizes and portfolio management techniques made necessary by different cash flows and different associated costs; (v) the time spent by portfolio managers and their teams (among other personnel across various departments, including legal, compliance and risk management) in reviewing securities pricing, addressing different administrative responsibilities, and addressing different degrees of risk associated with management; and (vi) a variety of different costs. The Board noted that the CCO did not consider the fees for providing advisory services to other types of clients to be determinative in judging the appropriateness of the Federated Hermes Funds’ advisory fees.

The Board considered the CCO’s conclusion that the proposed management fee was reasonable. The Board reviewed the proposed fees and anticipated total expense ratio of the Fund and was satisfied that the proposed overall expense structure of the Fund appeared to be appropriate.

Profitability and Other Benefits

The Board considered other benefits to the Adviser and its affiliates from their relationships with the Fund. In connection with the Board's governance of other Federated Hermes Funds, the Board regularly receives financial information about Federated Hermes, including information regarding the compensation and ancillary (or "fall-out") benefits that Federated Hermes derived from its relationships with the Federated Hermes Funds. This information covers not only the fees under the Federated Hermes Funds' investment advisory contracts, but also fees received by Federated Hermes' affiliates for providing other services to the Federated Hermes Funds under separate contracts (e.g., for serving as the Federated Hermes Funds' administrator and distributor). In this regard, the Board considered that certain of Federated Hermes' affiliates provide distribution and shareholder services to the Federated Hermes Funds, for which they may be compensated through distribution and servicing fees paid pursuant to Rule 12b-1 plans or otherwise. The Board also received and considered information detailing any indirect benefit that Federated Hermes may derive from its receipt of research services from brokers who execute portfolio trades for the Federated Hermes Funds. In addition, the Board considered that, in order for the Federated Hermes Funds to remain competitive in the marketplace, the Adviser and its affiliates frequently waived fees and/or reimbursed expenses and have disclosed to Federated Hermes Fund shareholders and/or reported to the Board their intention to do so (or continue to do so) in the future. Moreover, the Board received and considered regular reports from Federated Hermes throughout the year as to the institution, adjustment or elimination of these voluntary waivers and/or reimbursements.

The Board received and considered information furnished by Federated Hermes, as requested by the CCO, that reported projected revenues for the Fund, as detailed cost allocation reports had not yet been projected for the Fund. The Board considered the CCO's view that, while these cost allocation reports apply consistent allocation processes, the inherent difficulties in allocating costs continue to cause the CCO to question the precision of the process and to conclude that such reports may be unreliable because a single change in an allocation estimate may dramatically alter the resulting estimate of cost and/or profitability of a Federated Hermes Fund and may produce unintended consequences. The Board considered that the Fund was new to Federated Hermes and noted the CCO's view that any projected cost allocation and/or profit margin does not represent the full or actual cost of operating a Federated Hermes Fund and makes only rough estimates of the cost to launch a Federated Hermes Fund. The Board also considered the CCO's view that, while the Fund is expected to grow in size, the creation and maintenance of the Fund requires a substantial initial investment. The allocation information, including the CCO's view that estimations regarding the Fund may be unreliable, was considered in the evaluation by the Board.

The Board also considered information regarding the CCO's review of information compiled by Federated Hermes comparing its profitability information to other publicly held fund management companies. The Board considered that the CCO noted that Federated Hermes regularly undertakes to establish new Federated Hermes Funds and maintains a number of other smaller Federated Hermes Funds that, while expected to grow to a greater size, nevertheless require substantial investment and waiver or assumption of fees and other expenses in order to deliver them to the marketplace. The Board considered the CCO's conclusion that, based on such profitability information, Federated Hermes' profit margins did not appear to be excessive. The Board also considered the CCO's view that Federated Hermes appeared financially sound, with the resources necessary to fulfill its obligations under its contracts with the Federated Hermes Funds, including the proposed Contract.

Economies of Scale

The Board received and considered information about the notion of possible realization of "economies of scale" as a fund grows larger, the difficulties of calculating economies of scale at an individual fund level, and the extent to which potential scale benefits are shared with shareholders. The Board considered that any reduction in fixed costs associated with the management of the Fund would benefit the Adviser due to the unitary fee structure of the Fund, but that the unitary fee would protect shareholders from a rise in operating costs and/or a decline in Fund assets and is a transparent means of informing the Fund's shareholders of the fees associated with the Fund. The Board also considered that Federated Hermes has made significant and long-term investments in areas that support all of the Federated Hermes Funds, such as personnel and processes for the portfolio management (including market data on which portfolio managers make investment decisions), trading operations, issuer engagement (including with respect to ESG matters), shareholder services, compliance, business continuity, internal audit and risk management functions, as well as systems technology (including technology relating to cybersecurity) and use of data. The Board noted that Federated Hermes' investments in these areas are extensive and are designed to provide enhanced services to the Federated Hermes Funds and their shareholders. The Board considered that the benefits of these investments (as well as the benefits of any economies of scale, should they exist) are likely to be shared with the family of Federated Hermes Funds as a whole. In addition, the Board considered that the Adviser and its affiliates have frequently waived fees and/or reimbursed expenses for the Federated Hermes Funds and that such waivers and reimbursements are another means for potential economies of scale to be shared with shareholders and can provide protection from an increase in expenses if a Federated Hermes Fund's assets decline. The Board noted the fee waiver arrangement proposed for the Fund.

In connection with the Board’s governance of other Federated Hermes Funds, the Board regularly receives information furnished by Federated Hermes regarding adviser-paid fees (commonly referred to as “revenue sharing”). The Board considered the beliefs of Federated Hermes and the CCO that this information should be viewed to determine if there was an incentive to either not apply breakpoints, or to apply breakpoints at higher levels, and should not be viewed to determine the appropriateness of advisory fees. The Board also noted the absence of any applicable regulatory or industry guidelines on this subject, which is compounded by the lack of any common industry practice or general pattern with respect to structuring fund management fees with “breakpoints” that serve to reduce the fees as a fund attains a certain size. The Board considered that the CCO did not recommend institution of breakpoints in pricing Federated Hermes’ proposed investment management services to the Fund at this time. The Board noted that, as part of its future annual review of the Contract, it will review asset growth in the Fund, whether economies of scale that can be reasonably identified have been achieved, and the extent to which such economies of scale may be shared with Fund shareholders.

Conclusions

The Board considered: (i) the CCO’s conclusion that his observations and the information accompanying the New Fund CCO Fee Evaluation Report show that the proposed management fee for the Fund was reasonable; and (ii) the CCO’s recommendation that the Board approve the proposed management fee.

On the basis of the information and factors summarized above, among other information and factors deemed relevant by the Board, and the evaluation thereof, the Board, including the Independent Trustees, unanimously voted to approve the initial advisory contract and its two year term in May of 2021. The Board based its determination to approve the Contract on the totality of the circumstances and relevant factors and with a view of past and future long-term considerations. Not all of the factors and considerations identified above were necessarily deemed to be relevant to the Fund, nor did the Board consider any one of them to be determinative. With respect to the factors that were deemed to be relevant, the Board’s determination to approve the Contract reflects its view that Federated Hermes’ proposal to establish and manage the Fund and its past performance and actions in providing services to other Federated Hermes Funds (which the Board has found to be satisfactory with respect to such other Federated Hermes Funds) provided a satisfactory basis to support the determination to approve the proposed arrangement.

Liquidity Risk Management Program – Annual Evaluation of Adequacy and Effectiveness

In accordance with Rule 22e-4 under the Investment Company Act of 1940, as amended (the “Liquidity Rule”), Federated Hermes ETF Trust (the “Trust”) has adopted and implemented a liquidity risk management program (the “Program”) for Federated Hermes Short Duration Corporate ETF (the “Fund” and, collectively with the other non-money market open-end funds advised by Federated Hermes, the “Federated Hermes Funds”). The Program seeks to assess and manage the Fund’s liquidity risk. “Liquidity risk” is defined under the Liquidity Rule as the risk that the Fund is unable to meet redemption requests without significantly diluting remaining investors’ interests in the Fund. The Board of Trustees of the Trust (the “Board”) has approved the designation of each Federated Hermes Fund’s investment adviser as the administrator for the Program (the “Administrator”) with respect to that Fund. The Administrator, in turn, has delegated day-to-day responsibility for the administration of the Program to multiple Liquidity Risk Management Committees, which are comprised of representatives from certain divisions within Federated Hermes.

The Program is comprised of various components designed to support the assessment and/or management of liquidity risk, including: (1) the periodic assessment (no less frequently than annually) of certain factors that influence the Fund’s liquidity risk; (2) the periodic classification (no less frequently than monthly) of the Fund’s investments into one of four liquidity categories that reflect an estimate of their liquidity under current market conditions; (3) a 15% limit on the acquisition of “illiquid investments” (as defined under the Liquidity Rule); (4) to the extent a Fund does not invest primarily in “highly liquid investments” (as defined under the Liquidity Rule), the determination of a minimum percentage of the Fund’s assets that generally will be invested in highly liquid investments (an “HLIM”); (5) if a Fund has established an HLIM, the periodic review (no less frequently than annually) of the HLIM and the adoption of policies and procedures for responding to a shortfall of the Fund’s highly liquid investments below its HLIM; and (6) periodic reporting to the Board.

At its meetings in May 2022, the Board received and reviewed a written report (the “Report”) from the Federated Hermes Funds’ Chief Compliance Officer and Chief Risk Officer, on behalf of the Administrator, concerning the operation of the Program for the period from April 1, 2021 through March 31, 2022 (the “Period”). The Report addressed the operation of the Program and assessed its adequacy and effectiveness, including, where applicable, the operation of any HLIM established for a Federated Hermes Fund and each Federated Hermes Fund’s access to other available funding sources such as the Federated Hermes Funds’ interfund lending facility, redemptions in-kind, reverse repurchase agreement transactions, redemptions

delayed beyond the normal T+1 settlement, but within seven days of the redemption request, and committed lines of credit. There were no material changes to the Program during the Period. The Report summarized the operation of the Program and the information and factors considered by the Administrator in assessing whether the Program has been adequately and effectively implemented with respect to the Federated Hermes Funds. Such information and factors included, among other things:

- confirmation that it was not necessary for the Fund to utilize, and the Fund did not utilize, alternative funding sources during the Period;
- the periodic classifications of the Fund's investments into one of four liquidity categories and the methodologies and inputs used to classify the investments, including the Fund's reasonably anticipated trade size;
- the analysis received from a third-party liquidity assessment vendor that is taken into account in the process of determining the liquidity classifications of the Fund's investments and the results of an evaluation of the services performed by the vendor in support of this process;
- the fact that the Fund invested primarily in highly liquid investments during the Period and, therefore, was not required to establish, and has not established, an HLIM and the procedures for monitoring the status of the Fund as investing primarily in highly liquid investments;
- the fact that the Fund invested no more than 15% of its assets in illiquid investments during the Period and the procedures for monitoring this limit;
- the fact that there were no liquidity events during the Period, that materially affected the Fund's liquidity risk;
- the impact on liquidity and management of liquidity risk caused by extended non-U.S. market closures and confirmation that there were no issues for any of the affected Federated Hermes Funds in meeting shareholder redemptions at any time during these temporary non-U.S. market closures;
- circumstances during the Period under which the Administrator convened meetings of the Liquidity Risk Management Committees more frequently than normal to conduct enhanced liquidity risk monitoring, including prior to the Russian invasion of Ukraine.

Based on this review, the Administrator concluded that the Program is operating effectively to assess and manage the Fund's liquidity risk, and that the Program has been and continues to be adequately and effectively implemented to monitor and, as applicable, respond to the Fund's liquidity developments.

Voting Proxies on Fund Portfolio Securities

A description of the policies and procedures that the Fund uses to determine how to vote proxies, if any, relating to securities held in the Fund's portfolio is available, without charge and upon request, by calling 1-800-341-7400, Option #4. A report on "Form N-PX" of how the Fund voted any such proxies during the most recent 12-month period ended June 30 is available via the Proxy Voting Record (Form N-PX) link associated with the Fund name at FederatedHermes.com/us/FundInformation. Form N-PX filings are also available at the SEC's website at sec.gov.

Quarterly Portfolio Schedule

Each fiscal quarter, the Fund will file with the SEC a complete schedule of its monthly portfolio holdings on "Form N-PORT." The Fund's holdings as of the end of the third month of every fiscal quarter, as reported on Form N-PORT, will be publicly available on the SEC's website at sec.gov within 60 days of the end of the fiscal quarter upon filing. You may also access this information via the link to the Fund name at FederatedHermes.com/us.

Notes

Notes

Funds are not bank deposits or obligations, are not guaranteed by any bank and are not insured or guaranteed by the U.S. government, the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other government agency. Investment in funds involves investment risk, including the possible loss of principal.

This Report is authorized for distribution to prospective investors only when preceded or accompanied by the Fund's Prospectus, which contains facts concerning its objective and policies, management fees, expenses and other information.
