Federated Hermes Kaufmann: An intensive, bottom-up focus on growth

Investors are drawn to growth funds for many reasons. One primary reason is the pursuit of capital appreciation, the ability to grow assets over a long period. The true power of growth investing rests with the ability to compound earnings at an above-average rate. The challenge is identifying those stocks capable of doing so over at least a three- to five-year time horizon.

This underscores the value of Federated Hermes Kaufmann's emphasis on pursuing exceptional, long-term growth opportunities at the best possible price—whether by uncovering up-and-coming companies through intensive research, increasing positions in great companies when the overall market stumbles or identifying strong potential at the initial public offering (IPO) stage.

The Federated Hermes Kaufmann team uncovers growth opportunities through:

- On-the-ground research**
 The Kaufmann team participates in more than 3,500 meetings with company management teams and ancillary businesses each year
- Access to the IPO market**
 Of the 58 holdings in the fund, 6 were first purchased at IPO (5.82% of the fund)
- Relationships with several investment banks**
 Further strengthens the Kaufmann team's ability to participate in the difficult-to-access IPO market
