<b>1986</b> Iran-Contra affair	<b>1998</b> Emerging markets crisis	<b>2010</b> Five little PIIGS	<b>2022</b> Fed tightening

## ...and **one** good reason why you should

Growth of \$10,000 in S&P 500 Index

Sources: Federated Hermes, Morningstar, Inc.

Not FDIC Insured • May Lose Value • No Bank Guarantee

**Past performance is no guarantee of future results. Performance over shorter time periods of time would have varied. Investment products are subject to risks and fluctuate in value. Stocks are more volatile than other investments in return for their greater growth potential.**

Performance quoted is for illustrative purposes only and is not representative of performance for any specific investment.

**S&P 500 Index** is an unmanaged capitalization-weighted index of 500 stocks designated to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries. Investments cannot be made directly in an index.
