NET UNREALIZED DEPRECIATION ON FOREIGN EXCHANGE CONTRACTS				\$(119,117)

The average value at settlement date payable and receivable of foreign exchange contracts purchased and sold by the Fund throughout the period was \$133,681 and \$95,365, respectively. This is based on the contracts held as of each month-end throughout the three-month fiscal period.

The average notional amount of credit default swap contracts held by the Fund throughout the period was \$250,000. This is based on amounts held as of each month-end throughout the three-month fiscal period.

Net Unrealized Appreciation (Depreciation) on Futures Contracts and Foreign Exchange Contracts is included in "Other Assets and Liabilities—Net."

Transactions with affiliated investment companies, which are funds managed by the Adviser or an affiliate of the Adviser, during the period ended February 29, 2024, were as follows:

- 1 All or a portion of this security is pledged as collateral to ensure the Fund is able to satisfy the obligations of its outstanding futures or swap contracts.
- 2 7-day net yield.
- 3 Assets, other than investments in securities, less liabilities.

Note: The categories of investments are shown as a percentage of total net assets at February 29, 2024.

Investment Valuation

In calculating its net asset value (NAV), the Fund generally values investments as follows:

- Fixed-income securities are fair valued using price evaluations provided by a pricing service approved by Federated Investment Management Company (the "Adviser").
- Derivative contracts listed on exchanges are valued at their reported settlement or closing price, except that options are valued at the mean of closing bid and ask quotations.
- Over-the-counter (OTC) derivative contracts are fair valued using price evaluations provided by a pricing service approved by the Adviser.
- Shares of other mutual funds or non-exchange-traded investment companies are valued based upon their reported NAVs, or NAV per share practical expedient, as applicable.

■ For securities that are fair valued in accordance with procedures established by and under the general supervision of the Adviser, certain factors may be considered, such as: the last traded or purchase price of the security, information obtained by contacting the issuer or dealers, analysis of the issuer's financial statements or other available documents, fundamental analytical data, the nature and duration of restrictions on disposition, the movement of the market in which the security is normally traded, public trading in similar securities or derivative contracts of the issuer or comparable issuers, movement of a relevant index, or other factors including but not limited to industry changes and relevant government actions.

If any price, quotation, price evaluation or other pricing source is not readily available when the NAV is calculated, if the Fund cannot obtain price evaluations from a pricing service or from more than one dealer for an investment within a reasonable period of time as set forth in the Adviser's valuation policies and procedures for the Fund, or if information furnished by a pricing service, in the opinion of the Adviser's valuation committee ("Valuation Committee"), is deemed not representative of the fair value of such security, the Fund uses the fair value of the investment determined in accordance with the procedures described below. There can be no assurance that the Fund could obtain the fair value assigned to an investment if it sold the investment at approximately the time at which the Fund determines its NAV per share, and the actual value obtained could be materially different.

Fair Valuation and Significant Events Procedures

Pursuant to Rule 2a-5 under the Investment Company Act of 1940, the Fund's Board of Directors (the "Directors") has designated the Adviser as the Fund's valuation designee to perform any fair value determinations for securities and other assets held by the Fund. The Adviser is subject to the Directors' oversight and certain reporting and other requirements intended to provide the Directors the information needed to oversee the Adviser's fair value determinations.

The Adviser, acting through its Valuation Committee, is responsible for determining the fair value of investments for which market quotations are not readily available. The Valuation Committee is comprised of officers of the Adviser and certain of the Adviser's affiliated companies and determines fair value and oversees the calculation of the NAV. The Valuation Committee is also authorized to use pricing services to provide fair value evaluations of the current value of certain investments for purposes of calculating the NAV. The Valuation Committee employs various methods for reviewing third-party pricing-service evaluations including periodic reviews of third-party pricing services' policies, procedures and valuation methods (including key inputs, methods, models and assumptions), transactional back-testing, comparisons of evaluations of different pricing services, and review of price challenges by the Adviser based on recent market activity. In the event that market quotations and price evaluations are not available for an investment, the Valuation Committee determines the fair value of the investment in accordance with procedures adopted by the Adviser. The Directors periodically review the fair valuations made by the Valuation Committee. The Directors have also approved the Adviser's fair valuation and significant events procedures as part of the Fund's compliance program and will review any changes made to the procedures.

Factors considered by pricing services in evaluating an investment include the yields or prices of investments of comparable quality, coupon, maturity, call rights and other potential prepayments, terms and type, reported transactions, indications as to values from dealers and general market conditions. Some pricing services provide a single price evaluation reflecting the bid-side of the market for an investment (a "bid" evaluation). Other pricing services offer both bid evaluations and price evaluations indicative of a price between the prices bid and ask for the investment (a "mid" evaluation). The Fund normally uses bid evaluations for any U.S. Treasury and Agency securities, mortgage-backed securities and municipal securities. The Fund normally uses mid evaluations for any other types of fixed-income securities and any OTC derivative contracts. In the event that market quotations and price evaluations are not available for an investment, the fair value of the investment is determined in accordance with procedures adopted by the Adviser.

The Adviser has also adopted procedures requiring an investment to be priced at its fair value whenever the Valuation Committee determines that a significant event affecting the value of the investment has occurred between the time as of which the price of the investment would otherwise be determined and the time as of which the NAV is computed. An event is considered significant if there is both an affirmative expectation that the investment's value will change in response to the event and a reasonable basis for quantifying the resulting change in value. Examples of significant events that may occur after the close of the principal market on which a security is traded, or after the time of a price evaluation provided by a pricing service or a dealer, include:

- With respect to securities traded principally in foreign markets, significant trends in U.S. equity markets or in the trading of foreign securities index futures contracts;
- Political or other developments affecting the economy or markets in which an issuer conducts its operations or its securities are traded;
- Announcements concerning matters such as acquisitions, recapitalizations, litigation developments, or a natural disaster affecting the issuer's operations or regulatory changes or market developments affecting the issuer's industry.

The Adviser has adopted procedures whereby the Valuation Committee uses a pricing service to provide factors to update the fair value of equity securities traded principally in foreign markets from the time of the close of their respective foreign stock exchanges to the pricing time of the Fund. For other significant events, the Fund may seek to obtain more current quotations or price evaluations from alternative pricing sources. If a reliable alternative pricing source is not available, the Valuation Committee will determine the fair value of the investment in accordance with the fair valuation procedures approved by the Adviser. The Directors periodically review fair valuations made in response to significant events.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Level 1—quoted prices in active markets for identical securities.

Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Also includes securities valued at amortized cost.

Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used, as of February 29, 2024, in valuing the Fund's assets carried at fair value:

Valuation Inputs

	Level 1— Quoted Prices	Level 2— Other Significant Observable Inputs	Level 3— Significant Unobservable Inputs	Total
Debt Securities:				
Bonds	\$1,050,715	\$ 9,694,383	\$—	\$10,745,098
U.S. Treasuries	_	2,798,332	_	2,798,332
Exchange-Traded Fund	753,620	_	_	753,620
Purchased Call Options	19,014	_	_	19,014
Purchased Put Options	3,496	_	_	3,496
Investment Companies ¹	2,964,302	_	_	3,159,682
TOTAL SECURITIES	\$4,791,147	\$12,492,715	\$—	\$17,479,242
Other Financial Instruments:				
Assets				
Futures Contracts	\$ 1,173	\$ -	\$—	\$ 1,173
Foreign Exchange Contracts	_	72,027	_	72,027
Liabilities				
Foreign Exchange Contracts	_	(191,144)	_	(191,144)
TOTAL OTHER FINANCIAL INSTRUMENTS	\$ 1,173	\$ (119,117)	\$—	\$ (117,944)

As permitted by U.S. generally accepted accounting principles, an Investment Company valued at \$195,380 is measured at fair value using the NAV per share practical expedient and has not been categorized in the chart above but is included in the Total column. The price of shares redeemed of Project and Trade Finance Core Fund (PTCORE), a portfolio of Core Trust III, may be determined as of the closing NAV of the fund up to 24 days after receipt of a shareholder redemption request. The investment objective of PTCORE, is to provide total return. Copies of the PTCORE financial statements are available on the EDGAR database on the SEC's website or upon request from the Fund.

The following acronym(s) are used throughout this portfolio:

AUD —Australian Dollar

BRL —Brazilian Real

CAD —Canadian Dollar

CHF —Swiss Franc

CNY —Chinese Yuan Renminbi

EMTN—Euro Medium Term Note

EUR —Euro

GBP —Great British Pound

JPY —Japanese Yen

KRW —South Korean Won

MXN —Mexican Peso

NZD —New Zealand Dollar

PLN —Polish Zloty

THB —Thai Baht

USD —United States Dollar

Portfolio holdings are shown as of the date indicated and are unaudited. Since market conditions fluctuate suddenly and frequently, the portfolio holdings may change and this list is not indicative of future portfolio composition. These portfolio holdings are not intended to be and do not constitute recommendations that others buy, sell, or hold any of the securities listed.
