Management's Discussion of Fund Performance

The following discussion compares the performance of the Fund to the Russell Midcap Growth Index to show how the Fund's performance compares to the returns of similar investments for the reporting period. See the Average Annual Total Returns table below for the returns of the Fund and related indexes, including the Russell 3000 Index, which represents approximately 98% of investable U.S. equities by market capitalization. The Fund seeks to provide capital appreciation by investing principally in common stocks of small and medium-sized companies that are traded on national securities exchanges, the NASDAQ stock market and on the over-the-counter market.

Top Contributors to Performance

- By sector, allocation to the Industrials and Financials sectors positively affected Fund relative performance.
- Top individual Fund holdings that contributed positively to performance included Apollo Global, Blue Owl, Eaton Corp., Hamilton Lane, Quanta Services and Trane Technologies.
- Fund holdings in the Consumer Staples sector also led to outperformance as companies with pricing power were able to pass price increases through to customers during the reporting period.

Top Detractors from Performance

- The allocation to the Healthcare sector detracted from Fund relative performance as these stocks lagged the overall market significantly during the reporting period.
- By sector, stock selection in Real Estate detracted from Fund relative performance.
- A top individual Fund holding that detracted from performance was New Fortress Energy, Inc.

Fund Performance

Keep in mind that the Fund's past performance is not a good predictor of how the Fund will perform in the future. The graph and table do not reflect the deduction of taxes that a shareholder would pay on fund distributions or redemption of fund shares.
