### Management's Discussion of Fund Performance

The following discussion compares the performance of the Fund to the Russell Midcap Growth Index to show how the Fund's performance compares to the returns of similar investments for the reporting period. See the Average Annual Total Returns table below for the returns of the Fund and related indexes, including the Russell 3000 Index, which represents approximately 98% of investable U.S. equities by market capitalization. The Fund seeks to provide appreciation of capital by investing primarily in domestic, mid cap common stocks that offer superior growth prospects.

#### Top Contributors to Performance

- An overweight position in and solid stock selection among younger companies with strong analyst conviction contributed positively to Fund relative performance.
- By sector, stock selection in Consumer Discretionary and Information Technology aided performance.
- Top individual Fund holdings that contributed positively to performance included overweight positions in AppLovin Corp. (Class A), Allison Transmission Holdings, Inc. and Spotify Technology SA.

#### Top Detractors from Performance

- An underweight position in companies with negative analyst conviction, positive free cash flow and weakening earnings to price ratios detracted from Fund relative performance.
- By sector, stock selection in Financials detracted from performance.
- Top individual Fund holdings that detracted from performance were underweight positions in Palantir Technologies Inc. (Class A) and Fair Isaac Corporation.

## Fund Performance

Keep in mind that the Fund's past performance is not a good predictor of how the Fund will perform in the future. The graph and table do not reflect the deduction of taxes that a shareholder would pay on fund distributions or redemption of fund shares.
