Summary Prospectus

November 1, 2023

Disclosure contained herein relates to all classes of the Fund, as listed below, unless otherwise noted.

Share Class | Ticker

A | MMIFX

Institutional | MMFIX

Federated Hermes Michigan Intermediate Municipal Fund

A Portfolio of Federated Hermes Municipal Securities Income Trust

Before you invest, you may want to review the Fund's Prospectus, which contains more information about the Fund and its risks. You can find the Fund's Prospectus and other information about the Fund, including the Statement of Additional Information and most recent reports to shareholders, online at FederatedHermes.com/us/FundInformation. You can also get this information at no cost by calling 1-800-341-7400, by sending an email request via Contact Us on FederatedHermes.com/us, or from a financial intermediary through which Shares of the Fund may be bought or sold. The Fund's Prospectus and Statement of Additional Information, both dated November 1, 2023, are incorporated by reference into this Summary Prospectus.

A mutual fund seeking to provide current income by investing in a portfolio of tax-exempt securities so that, normally, distributions of annual interest income are exempt from federal regular income tax (federal regular income tax does not include the federal alternative minimum tax (AMT)) and the personal income taxes imposed by the state of Michigan and Michigan municipalities.

As with all mutual funds, the Securities and Exchange Commission (SEC) has not approved or disapproved these securities or passed upon the adequacy of this Prospectus. Any representation to the contrary is a criminal offense.

Not FDIC Insured • May Lose Value • No Bank Guarantee

FEDERATED HERMES MICHIGAN INTERMEDIATE MUNICIPAL FUND

A Portfolio of Federated Hermes Municipal Securities Income Trust
CLASS A SHARES (TICKER MMIFX)
INSTITUTIONAL SHARES (TICKER MMFIX)

SUPPLEMENT TO SUMMARY PROSPECTUS, PROSPECTUS AND STATEMENT OF ADDITIONAL INFORMATION DATED NOVEMBER 1, 2023

A Special Meeting of Shareholders (the “Special Meeting”) of Federated Hermes Michigan Intermediate Municipal Fund (the “Fund”), a portfolio of Federated Hermes Municipal Securities Income Trust (the “Trust”), will be held at 4000 Ericsson Drive, Warrendale, Pennsylvania 15086-7561, at 10:00 AM (Eastern Time), on February 5, 2024, to approve a proposed Plan of Liquidation (the “Plan” or “Liquidation”) with respect to the Fund.

The Plan was reviewed and approved by the Board of Trustees (the “Board”) of the Trust at meetings held on August 11, 2023 and November 9, 2023. The Board’s approval of the Plan is subject to further approval by the Fund’s shareholders.

The Board, including the Independent Trustees, and the Fund’s investment adviser (“Adviser”) have concluded that the Fund’s asset growth has been more modest than initially envisioned, with the result that the prospects for future asset growth and lower operating expenses are considerably limited should the Adviser continue to manage the assets of the Fund.

It is expected that the record date for determination of shareholders entitled to vote at the Special Meeting will be December 8, 2023 (the “Record Date”). Holders of shares purchased after the Record Date will not be entitled to vote at the meeting. Assuming shareholder approval is obtained, the Liquidation is expected to occur after the close of business on or about February 20, 2024 (the “Liquidation Date”).

At any time prior to the Liquidation Date, shareholders of the Fund may redeem their shares of the Fund pursuant to the procedures set forth in the Fund’s Prospectus. Shareholders of the Fund’s Class A Shares may exchange shares of the Fund for shares of the same class of another Federated Hermes fund provided the shareholder meets any applicable shareholder eligibility criteria and investment minimum for the Federated Hermes fund for which the shareholder is exchanging. Shareholders of the Fund’s Institutional Shares may exchange shares of the Fund for shares of any Federated Hermes fund or share class that does not have a stated sales charge or contingent deferred sales charge, if the shareholder meets the eligibility criteria and investment minimum for the Federated Hermes fund for which the shareholder is exchanging (except that exchanges are not permitted into shares of Federated Hermes Institutional Money Market Management, Federated Hermes Institutional Tax-Free Cash Trust, Federated Hermes Institutional Prime Obligations Fund, Federated Hermes Institutional Prime Value Obligations Fund, no-load Class A Shares and Class R Shares of any Fund).

In advance of the Special Meeting, the Fund may deviate from its stated strategies, in reliance on the temporary investments policy described in its prospectus to accommodate large cash flows. If the liquidation is approved by shareholders, in advance of the Liquidation Date, the Fund may deviate from its stated investment objectives, strategies and policies to begin positioning the Fund for liquidation. It is anticipated that the Fund's portfolio will be converted into cash on or prior to the Liquidation Date.

The estimated expenses associated with the Liquidation to be borne by the Fund, including those related to direct proxy expenses and brokerage fees, will be provided in the forthcoming Proxy Statement.

To the extent that Federated Hermes, its affiliates, or its officers and directors, are deemed to be participants in the solicitation of proxies from shareholders of the Fund in connection with the proposed proxy statement, additional information regarding the interests of participants in the solicitation of proxies in connection with the proposed proxy statement will be included in, or incorporated into, the Proxy Statement that the Fund files with the Securities and Exchange Commission (SEC).

Shareholders of the Fund, as of the Record Date, will receive a Proxy Statement, or an "Important Notice Regarding the Availability of Proxy Materials," that provides additional information regarding the proposed Liquidation. The Proxy Statement, and any other documents filed by the Fund with the SEC, may be obtained free of charge on the SEC's website at [sec.gov](https://www.sec.gov) or on the Fund's website at FederatedHermes.com/us. Investors should read the Proxy Statement carefully before making any voting decision, because it contains important information.

SUPPLEMENT TO SUMMARY PROSPECTUS, PROSPECTUS AND STATEMENT OF ADDITIONAL INFORMATION DATED NOVEMBER 1, 2023

Federated Investment Management Company, investment adviser (“Adviser”) to Federated Hermes Michigan Intermediate Municipal Fund (the “Fund”), has determined to allow the Fund’s fee waivers to expire without renewal following their termination date effective November 1, 2023. Accordingly, the Fund will now bear all of its operating expenses, without limit or reimbursement by the Adviser, as reflected in the Fund’s most recently filed prospectus dated November 1, 2023.

Fund Summary Information

Federated Hermes Michigan Intermediate Municipal Fund (the “Fund”)

RISK/RETURN SUMMARY: INVESTMENT OBJECTIVE

The Fund’s investment objective is to provide current income exempt from federal regular income tax and personal income taxes imposed by the state of Michigan and Michigan municipalities.

RISK/RETURN SUMMARY: FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy, hold and sell Class A Shares (A) or Institutional Shares (IS) of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** You may qualify for certain sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in certain classes (e.g., A class) of Federated Hermes funds. More information about these and other discounts is available from your financial professional, in the “What Do Shares Cost?” section of the Prospectus on page 17 and in “Appendix B” to this Prospectus.

Shareholder Fees (fees paid directly from your investment)

	A	IS
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price).	3.00%	None
Maximum Deferred Sales Charge (Load) (as a percentage of original purchase price or redemption proceeds, as applicable)	0.00%	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends (and other Distributions) (as a percentage of offering price)	None	None
Redemption Fee (as a percentage of amount redeemed, if applicable)	None	None
Exchange Fee	None	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

	A	IS
Management Fee	0.40%	0.40%
Distribution (12b-1) Fee	None	None
Other Expenses ¹	1.09%	0.84%
Total Annual Fund Operating Expenses ¹	1.49%	1.24%

1 Other Expenses and Total Annual Fund Operating Expenses have been restated to reflect estimated expenses anticipated to be incurred in the current fiscal year.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 for the time periods indicated and then redeem or hold all of your Shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that operating expenses remain the same. The Example does not reflect sales charges (loads) on reinvested dividends. If these sales charges (loads) were included, your costs would be higher. Although your actual costs and returns may be higher or lower, based on these assumptions your costs would be:

Share Class	1 Year	3 Years	5 Years	10 Years
A	\$447	\$757	\$1,089	\$2,026
IS	\$126	\$393	\$ 681	\$1,500

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund Shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 15% of the average value of its portfolio.

RISK/RETURN SUMMARY: INVESTMENTS, RISKS AND PERFORMANCE

What are the Fund’s Main Investment Strategies?

The Fund pursues its objective by investing in a portfolio of tax-exempt securities so that, normally, distributions of annual interest income are exempt from federal regular income tax and the personal income taxes imposed by the state of Michigan and Michigan municipalities. Interest income from the Fund’s investments may be subject to (or may be a specific preference item for purposes of) the federal alternative minimum tax (AMT) for individuals.

The Fund’s portfolio securities will be investment grade or of comparable quality. Investment-grade securities are securities that receive investment grade ratings (i.e., generally ratings in the first, second, third or fourth highest rating category) by a nationally recognized statistical rating organization (NRSRO) or unrated securities of comparable quality. The presence of a ratings modifier, sub-category, or gradation (for example, a (+) or (-)) is intended to show relative standing within the major rating categories and does not affect the security credit rating for purposes of the Fund’s investment parameters. For example, securities rated AAA, AA, A or BBB (including modifiers, sub-categories or gradations) by Standard & Poor’s, an NRSRO, would be rated in the first, second, third or fourth highest rating category, respectively.

Under normal market conditions, the Fund’s dollar-weighted average portfolio maturity is between three and ten years, and its average-weighted duration is between three and seven years. The Adviser may lengthen or shorten duration from time to time based on its interest rate outlook. Duration measures the price sensitivity of a fixed-income security to changes in interest rates.

The securities in which the Fund may principally invest include tax-exempt securities, which may include, for example, general obligation bonds, special revenue bonds, private activity bonds, tax-increment financing bonds, municipal leases, zero-coupon securities, inverse floaters, municipal mortgage-backed securities and planned amortization classes. Certain of the tax-exempt securities in which the Fund invests may be subject to credit enhancement.

The Fund also may principally invest in derivative contracts (such as, for example, futures contracts, option contracts and swap contracts) and hybrid instruments to implement its investment strategies. For example, the Fund may use derivative contracts or hybrid instruments in an attempt to benefit from changes in the value of the underlying investments(s), to gain exposure to the municipal bond sector, to increase or decrease the effective duration of the Fund's portfolio or to hedge against potential losses. There can be no assurance that the Fund's use of derivative contracts or hybrid instruments will work as intended. Derivative investments made by the Fund are included within the Fund's 80% policy and are calculated at market value.

The Fund also may invest in certain securities or other investments (such as money market funds, market discount bonds, credit default swaps and other derivative transactions) that will likely cause the Fund to realize a limited amount of ordinary income or short-term capital gains (which are treated as ordinary income for federal income tax purposes).

The Fund will normally invest its assets so that at least 80% of the income that it distributes will be exempt from federal regular income tax and the personal income taxes imposed by the state of Michigan and Michigan municipalities. This policy may not be changed without shareholder approval.

What are the Main (or Principal) Risks of Investing in the Fund?

All mutual funds take investment risks. Therefore, it is possible to lose money by investing in the Fund. The primary factors that may reduce the Fund's returns include:

- **Tax-Exempt Securities Risk.** The amount of public information available about tax-exempt securities is generally less than for corporate equities or bonds. The secondary market for tax-exempt securities also tends to be less well-developed and less liquid than many other securities markets, which may limit the Fund's ability to sell its tax-exempt securities at attractive prices. Special factors, such as legislative changes, and state and local economic and business developments, may adversely affect the yield and/or value of the Fund's investments in tax-exempt securities. Tax-exempt issuers can and have defaulted on obligations, been downgraded or commenced insolvency proceedings. Like other issuers and securities, the likelihood that the credit risk associated with such issuers and such securities will increase is greater during times of economic stress and financial instability.
- **Interest Rate Risk.** Prices of fixed-income securities (including tax-exempt securities) generally fall when interest rates rise. The longer the duration of a fixed-income security, the more susceptible it is to interest rate risk. Recent and potential future changes in monetary policy made by central banks and/or their governments are likely to affect the level of interest rates.
- **Issuer Credit Risk.** It is possible that interest or principal on securities will not be paid when due. Such non-payment or default may reduce the value of the Fund's portfolio holdings, its share price and its performance.
- **Counterparty Credit Risk.** A party to a transaction involving the Fund may fail to meet its obligations. This could cause the Fund to lose money or to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategies.
- **Liquidity Risk.** Certain securities in which the Fund invests may be less readily marketable and may be subject to greater fluctuation in price than other securities. These features may make it more difficult to sell or buy a security at a favorable price or time. Liquidity risk also refers to the possibility that the Fund may not be able to sell a security or close out a derivative contract when it wants to. Over-the-counter derivative contracts generally carry greater liquidity risk than exchange-traded contracts.
- **Tax Risk.** In order to be tax-exempt, tax-exempt securities must meet certain legal requirements. Failure to meet such requirements may cause the interest received and distributed by the Fund to shareholders to be taxable. The federal income tax treatment of payments in respect of certain derivative contracts is unclear. The Fund also may invest in money market funds, market discount bonds, enter into credit default swap arrangements and other derivative transactions, and engage in other permissible activities that will likely cause the Fund to realize a limited amount of ordinary income or short-term capital gains (which are treated as ordinary income for federal

income tax purposes). Consequently, for each of these reasons, the Fund may receive payments, and make distributions, that are treated as ordinary income for federal income tax purposes. Income from the Fund also may be subject to AMT.

- **Leverage Risk.** Leverage risk is created when an investment, which includes, for example, a derivative contract, exposes the Fund to a level of risk that exceeds the amount invested. Changes in the value of such an investment magnify the Fund's risk of loss and potential for gain. Investments can have these same results if their returns are based on a multiple of a specified index, security or other benchmark.
- **Call Risk.** The Fund's performance may be adversely affected by the possibility that an issuer of a security held by the Fund may redeem the security prior to maturity at a price below or above its current market value.
- **Sector Risk.** Since the Fund invests in a portfolio of Michigan tax-exempt securities, the Fund may be subject to additional risks compared to funds that invest in multiple states. Although it has diversified, Michigan's economy is still heavily dependent upon certain industries, especially automobile, manufacturing and related industries. Any downturns in these industries may adversely affect the economy of the state. A substantial part of the Fund's portfolio may be comprised of securities issued or credit enhanced by companies in similar businesses, or with other similar characteristics. As a result, the Fund will be more susceptible to any economic, business, political or other developments which generally affect these entities.
- **Prepayment and Extension Risk.** When homeowners prepay their mortgages in response to lower interest rates, the Fund will be required to reinvest the proceeds at the lower interest rates available. Also, when interest rates fall, the price of municipal mortgage-backed securities may not rise to as great an extent as that of other fixed-income securities. When interest rates rise, homeowners are less likely to prepay their mortgages. A decreased rate of prepayments lengthens the expected maturity of a mortgage-backed security, and the price of mortgage-backed securities may decrease more than the price of other fixed income securities when interest rates rise.
- **Credit Enhancement Risk.** The securities in which the Fund invests may be subject to credit enhancement (for example, guarantees, letters of credit or bond insurance). If the credit quality of the credit enhancement provider (for example, a bank or bond insurer) is downgraded, the rating on a security credit enhanced by such credit enhancement provider also may be downgraded. Having multiple securities credit enhanced by the same enhancement provider will increase the adverse effects on the Fund that are likely to result from a downgrading of, or a default by, such an enhancement provider. Adverse developments in the banking or bond insurance industries also may negatively affect the Fund.
- **Risk Related to the Economy.** The value of the Fund's portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets. Economic, political and financial

conditions, industry or economic trends and developments or public health risks, such as epidemics or pandemics, may, from time to time, and for varying periods of time, cause the Fund to experience volatility, illiquidity, shareholder redemptions or other potentially adverse effects.

■ **Risk of Investing in Derivative Contracts and Hybrid Instruments.**

Derivative contracts and hybrid instruments involve risks different from, or possibly greater than, risks associated with investing directly in securities and other traditional investments. Specific risk issues related to the use of such contracts and instruments include valuation and tax issues, increased potential for losses and/or costs to the Fund, and a potential reduction in gains to the Fund. Each of these issues is described in greater detail in this Prospectus. Derivative contracts and hybrid instruments may also involve other risks described in this Prospectus, such as interest rate, credit, liquidity and leverage risks.

■ **Technology Risk.** The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

The Shares offered by this Prospectus are not deposits or obligations of any bank, are not endorsed or guaranteed by any bank and are not insured or guaranteed by the U.S. government, the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other government agency.

PERFORMANCE: BAR CHART AND TABLE

Risk/Return Bar Chart

The bar chart and performance table below reflect historical performance data for the Fund and are intended to help you analyze the Fund’s investment risks in light of its historical returns. The bar chart shows the variability of the Fund’s A class total returns on a calendar year-by-year basis. The Average Annual Total Return Table shows returns *averaged* over the stated periods, and includes comparative performance information. *The Fund’s performance will fluctuate, and past performance (before and after taxes) is not necessarily an indication of future results.* Updated performance information for the Fund is available under the “Products” section at FederatedHermes.com/us or by calling 1-800-341-7400.

The total returns shown in the bar chart do not reflect payment of any sales charges or recurring shareholder account fees. If these charges or fees had been included, the returns shown would have been lower.

The Fund’s A class total return for the nine-month period from January 1, 2023 to September 30, 2023, was (1.75)%.

Within the periods shown in the bar chart, the Fund’s A class highest quarterly return was 2.43% (quarter ended December 31, 2022). Its lowest quarterly return was (4.59)% (quarter ended March 31, 2022).

Average Annual Total Return Table

The Fund’s IS class commenced operations on April 28, 2020. For the periods prior to commencement of operations of the Fund’s IS class, the performance information shown below is for the Fund’s A class. The performance of the A class has not been adjusted to reflect the expenses of the IS class since the IS class has a lower expense ratio than the A class. The performance shown in the table has been adjusted to reflect differences between the sales loads and charges imposed on the purchase and redemption of the Fund’s IS class and A class. In addition to Return Before Taxes, Return After Taxes is shown for the Fund’s A class to illustrate the effect of federal taxes on Fund returns. After-tax returns are shown only for the A class, and after-tax returns for the IS class will differ from those shown for the A class. *Actual*

after-tax returns depend on each investor's personal tax situation, and are likely to differ from those shown. After-tax returns are calculated using a standard set of assumptions. The stated returns assume the highest historical **federal** income and capital gains tax rates. These after-tax returns do **not** reflect the effect of any applicable **state** and **local** taxes. After-tax returns are not relevant to investors holding shares through tax-deferred programs, such as a 401(k) plan, an Individual Retirement Account (IRA) or other tax-advantaged investment plan.

(For the Periods Ended December 31, 2022)

Share Class	1 Year	5 Years	10 Years
A:			
Return Before Taxes	(8.52)%	0.28%	1.09%
Return After Taxes on Distributions	(8.69)%	0.18%	1.02%
Return After Taxes on Distributions and Sale of Fund Shares	(4.39)%	0.69%	1.36%
IS:			
Return Before Taxes	(5.33)%	1.03%	1.47%
S&P Municipal Bond Intermediate Index¹ (reflects no deduction of fees, expenses or taxes)	(6.47)%	1.52%	2.15%
S&P Municipal Bond MI, Investment Grade, 1-15 Years Index² (reflects no deduction of fees, expenses or taxes)	(4.52)%	1.64%	2.06%
Morningstar Municipal Single State Intermediate Funds Average³	(7.71)%	0.58%	1.29%

- ¹ The S&P Municipal Bond Intermediate Index consists of bonds in the S&P Municipal Bond Index with a minimum maturity of 3 years and a maximum maturity of 15 years. It is a subindex of the S&P Municipal Bond Index which tracks fixed-rate tax-free bonds and bonds subject to the alternative minimum tax (AMT). The index includes bonds of all quality—from "AAA" to non-rated, including defaulted bonds—from all sectors of the municipal bond market.
- ² The S&P Municipal Bond MI, Investment Grade, 1-15 Years Index represents the portion of the MI Index composed solely of bonds that are rated "BBB-/Baa3" or higher with remaining maturities up to fifteen years.
- ³ Morningstar figures represent the average of the total returns reported by all the mutual funds designated by Morningstar as falling into the respective category indicated.

FUND MANAGEMENT

The Fund's Investment Adviser is Federated Investment Management Company.

Lee R. Cunningham II, Senior Portfolio Manager, has been the Fund's portfolio manager since May of 1998.

R.J. Gallo, CFA, Senior Portfolio Manager, has been the Fund's portfolio manager since October of 2017.

PURCHASE AND SALE OF FUND SHARES

You may purchase, redeem or exchange Shares of the Fund on any day the New York Stock Exchange is open. Shares may be purchased through a financial intermediary firm that has entered into a Fund selling and/or servicing agreement with the Distributor or an affiliate (“Financial Intermediary”) or directly from the Fund, by wire or by check. Please note that certain purchase restrictions may apply. Redeem or exchange Shares through a financial intermediary or directly from the Fund by telephone at 1-800-341-7400 or by mail.

A Class

The minimum investment amount for the Fund’s A class is generally \$1,500 for initial investments and \$100 for subsequent investments. Certain types of accounts are eligible for lower minimum investments. The minimum investment amount for Systematic Investment Programs is \$50.

IS Class

The minimum initial investment amount for the Fund’s IS Class is generally \$1,000,000 and there is no minimum subsequent investment amount. Certain types of accounts are eligible for lower minimum investments. The minimum investment amount for Systematic Investment Programs is \$50.

TAX INFORMATION

It is anticipated that Fund distributions will be primarily dividends that are exempt from federal regular income tax, although a portion of the Fund’s dividends may not be tax exempt. Dividends may be subject to state and local taxes (except for Michigan taxes, to the extent derived from Michigan tax-exempt investments and eligible for tax-exempt treatment under Michigan law). Although the Fund does not seek to realize capital gains, the Fund may realize and distribute capital gains from time to time as a result of the Fund’s normal investment activities. Any Fund distributions of capital gains are taxable at applicable capital gains rates. The Fund is generally not a suitable investment for retirement accounts. The Fund pursues its objective by investing in a portfolio of tax-exempt securities so that, normally (except as discussed in this Prospectus), distributions of annual interest income are exempt from federal regular income tax and the personal income taxes imposed by the state of Michigan and Michigan municipalities. Interest from the Fund’s investments may be subject to (or may be a specific preference item for purposes of) the federal AMT for individuals.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and/or its related companies may pay the intermediary for the sale of Fund Shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.
