Management's Discussion of Fund Performance

The following discussion compares the performance of the Fund to the Bloomberg US Corporate High Yield 2% Issuer Capped Index (the "Index") to show how the Fund's performance compares to the returns of similar investments for the reporting period. See the Average Annual Total Returns table below for the returns of the Fund and related indexes including the Bloomberg US Aggregate Bond Index, a required broad-based index which represents the overall U.S. fixed-income market. The Fund seeks high current income by investing primarily in sustainable, lower-rated fixed-income securities, including debt securities issued by U.S. or foreign businesses.

Top Contributors to Performance

- The Fund's performance relative to the Index was positively impacted by security selection in the Packaging, Retailers, Building Materials, Chemicals and Electric sectors.
- The Fund's relative performance was positively impacted by its underweight allocation to the poor performing Retailers and Finance Companies sectors.
- Specific Fund holdings that positively impacted performance relative to the Index included Seagate, CSC Holdings Trivium, Dornoch Debt Merger and CP Atlas Buyer.

Top Detractors from Performance

- The Fund's relative performance was negatively impacted by security selection in the Media & Entertainment, Cable & Satellite, Food, P&C and Pharmaceuticals industry sectors.
- The Fund's relative performance was negatively impacted by its industry allocation, especially its underweight allocation to the strong performing Wireline Telecommunication sector. It was also negatively impacted by its overweight allocation to the underperforming Technology and P&C industry sectors. Given the strong absolute performance during the period, the Fund's cash position was also a drag on performance.
- Specific Fund holdings that negatively impacted performance relative to the Index included Warner Brothers Discovery, Condor Merger Sub, Jones Deslauriers Insurance, Capstone Borrowers and Rocket Software.
