16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates > For each tax lot held in Federated Intercontinental Fund, the change in tax basis will be calculated by multiplying its cost basis, as of the date of the reorganization, by an adjustment factor.

See attachment for the adjustment factor by share class.

The resulting amount represents the adjusted per share tax basis. The holding period of all shares received includes the period that the exchanged Federated Intercontinental Fund shares were held.
