14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ For its tax year ended November 30, 2015, Federated Enhanced Treasury Income Fund made distributions in excess of its earnings. This excess is a non-taxable return of capital to its shareholders. See attached schedule.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ The amount of non-taxable return of capital reported on the attached schedule represents a reduction in the shareholders' tax basis in their shares held.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ The tax basis of the shareholders' shares for which these distributions were received is decreased per share by the amount of non-taxable return of capital on the attached schedule. The total tax basis reduction equals the sum of the per share amounts multiplied by the corresponding number of shares held on the record date.

Pursuant to IRC Section 301(c)(2), the portion of a distribution which is not a dividend, shall be applied against and reduce the adjusted tax basis of the stock.
