14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for								
the action ► On August 16, 2019,	zation within the meaning							
of IRC Section 368(a),								
(1) all or substantially all of the assets of Federated Absolute Return Fund (the Reorganizing								
Fund) were transferred in exchange solely for the shares of Federated Global Allocation								
Fund (the Surviving Fund),								
(2) Federated Global Allocation Fund's shares were distributed to holders of the outstanding								
shares of Federated Absolute Return Fund and								
(3) Federated Absolute Return Fund was liquidated and dissolved.								
```								
	*****							

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis b Due to the tax free status of this reorganization, Federated Absolute Return Fund shareholders' aggregate basis for the Federated Global Allocation Fund shares received remains the same as the aggregate basis of their Federated Absolute Return Fund shares exchanged. The per share basis, however, will change due to the differing number of shares received. This change will be calculated based on the relative fair market value of the two funds as of the date of the reorganization.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ► For each tax lot held in Federated Absolute Return Fund, the change in tax basis will be calculated by multiplying its cost basis, as of the date of the reorganization, by an adjustment factor.

See attachment for the adjustment factor by share class.

The resulting amount represents the adjusted per share tax basis. The holding period of all shares received includes the period that the exchanged Federated Absolute Return Fund shares were held.
