14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ For its tax year ended March 31, 2016, Federated Real Return Bond Fund made distributions in excess of its earnings. This excess is a non-taxable return of capital to its shareholders. See attached schedule.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ The amount of non-taxable return of capital reported on the attached schedule represents a reduction in the shareholders' tax basis in their shares held.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ The tax basis of the shareholders' shares for which these distributions were received is decreased per share by the amount of non-taxable return of capital on the attached schedule. The total tax basis reduction equals the sum of the per share amounts multiplied by the corresponding number of shares held on the record date.

**Part II** Organizational Action (continued)

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ▶ Pursuant to IRC Section 301(c) (1), the portion of a distribution which is a dividend (as defined in IRC Section 316) is includable in gross income. Pursuant to IRC Section 301(c) (2), the portion of a distribution which is not a dividend, shall be applied against and reduce the adjusted tax basis of the stock.

18 Can any resulting loss be recognized? ▶ No loss will be recognized as a result of any non-taxable return of capital. A loss may be realized upon the disposition of the shares by the shareholder.
